Teaching Pronunciation Focus On English Rhythm And Intonation

**Marianne Celce-Murcia, Donna
Brinton, Janet M. Goodwin**

Teaching Pronunciation Focus On English Rhythm And Intonation:

Teaching Pronunciation Rita Wong, 1987 **Teaching Pronunciation** Marianne Celce-Murcia, Donna Brinton, Janet M. Goodwin, 1996-10-13 This course includes an overview of current theory and practice The paperback edition offers current and prospective teachers of English a comprehensive treatment of pronunciation pedagogy drawing on current theory and practice The text provides an overview of teaching issues from the perspective of different methodologies and second language acquisition research It has a thorough grounding in the sound system of North American English and contains insights into how this sound system intersects with listening morphology and spelling It also contains diagnostic tools assessment measures and suggestions for syllabus design Discussion questions encourage readers to draw on their personal language learning teaching experiences as they assimilate the contents of each chapter Follow up exercises guide teachers in developing a range of classroom activities within a communicative framework **Phonology in English Language**

Teaching Martha C. Pennington, 2014-06-03 Phonology in English Language Teaching is an introductory text specifically directed at the needs of language teachers internationally Combining an overview of English phonology with structured practical guidance this text shows how phonology can be applied in the classroom An introductory chapter provides the philosophical framework followed by separate chapters on the phonology of consonants vowels and prosody As well as presenting core material on English phonology the book explores the relationship of orthography to the English sound system from a historical and a present day perspective The final chapter focuses on lesson design and provides practical advice to teachers on diagnosing and responding to students pronunciation difficulties As central themes the book examines English seen from the perspective of international usage and considers the relationship of phonology to communication and the broader language curriculum Consistent with its practical and communicative orientation each chapter concludes with pedagogical exercises and ideas for classroom and community research projects Pronunciation and Phonetics Adam Brown, 2014-03-26 This engaging succinct text is an introduction to both phonetics and phonology as applied to the teaching of pronunciation to English language learners Section 1 selectively covers the main areas of phonetics and phonology without going into any area in more depth than the average English language teacher requires or that the average English language teacher trainee can handle Section 2 focuses on practical issues related to learners and how they learn languages and what represents good practice in terms of classroom activities for pronunciation including aspects such as targets motivation and priorities The chapters end with activities to help the reader understand concepts Section 3 provides innovative sample activities which put into practice the theoretical points covered in the first two sections answers to the various exercises recommended further reading both print and non print a glossary of technical phonetic terms and a bibliography of works on pronunciation teaching The text is accompanied by a Companion Website with audio recordings of model pronunciations and audio material relating to the activities **English Pronunciation in L2 Instruction** Anna Jarosz, 2019-03-21 This book

provides an overview of pronunciation teaching and learning practices in secondary schools providing insights into secondary school learners needs expectations and motivation regarding the importance of learning English and particularly English pronunciation It presents a summary of the research on L2 pronunciation acquisition teaching techniques and factors affecting the learning process as well as the results and conclusions of a longitudinal study conducted in a Polish secondary school The study indicates that learners consider pronunciation a crucial component of English learning and a predictor of successful communication Moreover it shows that accuracy is highly valued by learners and that systematic and regular pronunciation instruction even if devoted mainly to segments has the potential to contribute to the overall improvement in learners communicative competence and their confidence as speakers and users of English The book is based on the first hand experience of a teacher researcher

Pronunciation for English as an International Language Ee-Ling Low,2014-09-15 Pronunciation plays a crucial role in learning English as an international language yet often remains marginalised by educators due to a lack of required phonetic and phonological knowledge Pronunciation for English as an International Language bridges the gap between phonetics phonology and pronunciation and provides the reader with a research based guide on how best to teach the English language The book follows an easy to follow format which ensures the reader will have a comprehensive grasp of each given topic by the end of the chapter Key ideas explored include Articulation of English speech sounds and basic transcription Connected speech processes Current issues in English language pronunciation teaching Multimedia in English language pronunciation practice Using speech analysis to investigate pronunciation features Using the latest research Pronunciation for English as an International Language will facilitate effective teaching and learning for any individual involved in teaching English as a second foreign or international language

The Handbook of English Pronunciation Marnie Reed,John M. Levis,2019-02-12 The Handbook of English Pronunciation presents a comprehensive exploration of English pronunciation with essential topics for applied linguistics researchers and teachers including language acquisition varieties of English historical perspectives accent s changing role and connections to discourse technology and pedagogy Provides thorough descriptions of all elements of English pronunciation Features contributions from a global list of authors reflecting the finest scholarship available Explores a careful balance of issues and topics important to both researchers and teachers Provides a historical understanding of the importance of pronunciation and examines some of the major ways English is pronounced today throughout the world Considers practical concerns about how research and practice interact in teaching pronunciation in the classroom

The Routledge Handbook of Contemporary English Pronunciation Okim Kang,Ron I. Thomson,John M Murphy,2017-11-08 The Routledge Handbook of Contemporary English Pronunciation provides a comprehensive survey of this field covering both theoretical and practical perspectives on pronunciation In 35 chapters contributed by leading scholars from around the world this Handbook examines linguistic and historical background of sound systems and theoretical issues linked to sound changes pronunciation acquisition and factors

related to speech production pronunciation research and applications to second language pronunciation the link between pronunciation and other language skills including perception and other socio cultural factors pronunciation and its relation to World Englishes The Routledge Handbook of Contemporary English Pronunciation will be essential reading for anyone with an interest in pronunciation *The Music of Everyday Speech* Ann Wennerstrom, 2001-11 There is a growing interest among discourse analysts in incorporating the crucial element of prosody into the analysis of spoken language These studies have tended to focus on specific aspects of prosody rather than presenting an over all framework within which future analysis might continue This volume establishes such a framework and will consider the role of prosody in a variety of discourse genres Using naturally occurring data the author demonstrates how the examination of prosody can enhance traditional analysis **Discourse Intonation in L2** Dorothy M. Chun, 2002 Intonation rhythm and general melody of language are among the first aspects of speech that infants attend to and produce themselves Yet these same features are among the last to be mastered by adult L2 learners Why is this and how can L2 learners be helped This book first presents the latest linguistic theories of intonation in particular how intonation functions in discourse not only to signal sentence types and attitudinal meanings but also to provide turn taking and other conversational cues The second part of the book examines the research in applied linguistics on the acquisition of L2 phonology and intonation The third section offers practical applications of how to incorporate the teaching of intonation into L2 instruction with a focus on using new speech technologies The accompanying CD ROM makes a unique addition in allowing for simultaneous audio playback and visual display of the pitch contours of utterances contained in the book Users can start or stop the playback at any point in the utterance and can observe first hand how such visual and audio representations could be useful for L2 learners
