Education and the Working Class Brian Jackson, Dennis Marsden, 1962 UK Social research survey of the social implications of the educational level and the place in the social structure of children of workers in huddersfield covers sociological aspects family relationships and environment social status and prestige the conflict between the role of the school and the domiciliary neighbourhoods the rising standard of general education etc References and statistical tables

The Training of the Urban Working Class Paul C. Violas, 1978 **Social Haunting, Education, and the Working Class** Kat Simpson, 2021-07-19 Based on a critical Marxist ethnography conducted at a state primary school in a former coalmining community in the north of England this book provides insight into teachers perceptions of the effects of deindustrialisation on education for the working class The book draws on the notion of social haunting to help understand the complex ways in which historical relations and performances reflective of the community s industrial past continue to shape experiences and processes of schooling The arguments presented enable us to engage with the goodness of the past as well as the pain and suffering associated with deindustrialisation This it is argued enables teachers and pupils to engage with rhythms relations and performances that recognise the heritage and complexities of working class culture Reckoning and harnessing with the fullness of ghosts is essential if schooling is to be refashioned in more encouraging and relational ways with and for the working class This text will benefit researchers academics and educators with an interest in the sociology of education and social class and education in particular Those interested in schooling ethnography and qualitative social research will also benefit from the book Adult Education & The Working Class Kevin Ward, Richard Taylor, 2014-10-10 This book has two purposes first to argue that there is a greater need now than ever before for liberal adult education for the working class Such provision would both help to ameliorate the gross inequalities of our society and provide some counter balance to the increasingly utilitarian and vocational orientation of post school education Secondly the book aims to describe and analyse in some detail the community based programme for various disadvantaged working class groups that has been developed by a British Pioneer Work team concerned with adult continuing education The methods objectives and overall practice described in this case study are of relevance to those working in all sectors of adult and community education This book is edited by two members of staff concerned with Pioneer Work development from the outset and the contributors include other members of the Pioneer Work team of lecturers and researchers **Learning to Labor** Paul E. Willis, 1981 Claims the rebellion of poor and working class children against school authority prepares them for working class jobs

Education and the Working Class (RLE Edu L Sociology of Education) Brian Jackson, Dennis Marsden, 2012-05-23 When first published this book had a significant influence on the campaign for comprehensive schools and it spoke to generations of working class students who were either deterred by the class barriers erected by selective schools and elite universities or having broken through them to gain university entry found themselves at sea The authors admit at the end of the book they

have raised and failed to answer many questions and in spite of the disappearance of the majority of grammar schools many of those questions still remain unanswered The Working Class Ian Gilbert, 2018-03-27 In The Working Class Poverty education and alternative voices Ian Gilbert unites educators from across the UK and further afield to call on all those working in schools to adopt a more enlightened and empathetic approach to supporting children in challenging circumstances One of the most intractable problems in modern education is how to close the widening gap in attainment between the haves and the have nots Unfortunately successive governments both in the UK and abroad have gone about solving it the wrong way Independent Thinking founder Ian Gilbert's increasing frustration with educational policies that favour no excuses and compliance and that ignore the broader issues of poverty and inequality is shared by many others across the sphere of education and this widespread disaffection has led to the assembly of a diverse cast of teachers school leaders academics and poets who unite in this book to challenge the status quo Their thought provoking commentary ideas and impassioned anecdotal insights are presented in the form of essays think pieces and poems that draw together a wealth of research on the issue and probe and discredit the current view on what is best for children from poorer socio economic backgrounds Exploring themes such as inclusion aspiration pedagogy and opportunity the contributions collectively lift the veil of feigned equality of opportunity for all to reveal the bigger picture of poverty and to articulate the hidden truth that there is always another way This book is not about giving you all the answers however The contributors are not telling teachers or schools leaders how to run their schools their classroom or their relationships the field is too massive too complex too open to debate and to discussion to propose off the shelf solutions Furthermore the research referred to in this book is not presented in order to tell educators what to think but rather to inform their own thinking and to challenge some of the dominant narratives about educating the feckless poor This book is about helping educators to ask the right questions and its starting question is quite simple how can we approach the education of young people from disadvantaged backgrounds in a way that actually makes a difference for all concerned Written for policy makers and activists as well as school leaders and educators The Working Class is both a timely survey of the impact of current policies and an invaluable source of practical advice on what can be done to better support disadvantaged children in the school system Edited by Ian Gilbert with contributions from Nina Jackson Tim Taylor Dr Steven Watson Rhythmical Mike Dr Ceri Brown Dr Brian Male Julia Hancock Paul Dix Chris Kilkenny Daryn Egan Simon Paul Bateson Sarah Pavey Dr Matthew McFall Jamie Thrassivoulou Hywel Roberts Dr Kevin Ming Leah Stewart Real David Cameron Sir Al Aynsley Green Shona Crichton Floyd Woodrow Jonathan Lear Dr Debra Kidd Will Ryan Andrew Morrish Phil Beadle Jaz Ampaw Farr Darren Chetty Sameena Choudry Tait Coles Professor Terry Wrigley Brian Walton Dave Whitaker Gill Kelly Roy Leighton Jane Hewitt Jarlath O'Brien Crista Hazell Louise Riley Mark Creasy Martin Illingworth Ian Loynd David Rogers Professor Mick Waters and Professor Paul Clarke
