Teaching Your Child To Read For The Fun Of It:

TEACH YOUR CHILD TO READ WITH MOVEMENT, FUN & GAMES Sharon Stansfield, 2012-09-14 This unique reading programme has been developed after many years of working as an Occupational Therapist with children with Dyslexia Attention Deficit ADHD and other reading and learning difficulties It has been designed specifically for easy use by parents grandparents and au pairs providing a progressive series of games which are fun to play and which take your child developmentally through the stages of learning to read It can also be used by teachers and remedial teachers as a supplement to their usual lessons because it follows the correct developmental stages of reading A major difference between this programme and many other programmes for reading is the emphasis on movement rhythm and rhyme Parents are often surprised that I encourage movement when teaching reading foundations They are also usually pleased that at last they can stop the fight of trying to keep their child sitting still and focussing quietly while trying to practise his reading Movement is fundamental to this programme and rhythm and rhyme are intrinsically linked to movement The section on vestibular processing explains why I have found this to be so necessary and yet overlooked when teaching reading In the introduction I give the reader a brief overview of the underlying principles that have informed my approach I also help the reader identify the developmental foundations that children need in order to begin to learn to read and understand how each developmental step prepares the way for the next This is not an in depth academic diatribe on neuro development it is an overview designed to inform and empower the reader to be able to get the best out of the programme Indeed I have found that when I empower parents this way they usually go away to return with even better more creative ideas and their children progress so much faster Reading does not begin with the recognition of written letters and how they combine to make words Children need to learn to become aware of sounds within words and to be able to separate sounds from each other They need to be able to play with sounds They also need to recognise shapes of letters and remember the sounds they represent There is such a lot of learning that needs to be achieved before we can really begin a formal reading lesson The games in this book start at the early developmental stage of learning to listen actively to the different constituent sounds in words and to play with the sounds of words These early games can be played in the park or garden since no books are needed Young children who are not yet ready to learn to recognise written words can play these games and develop a strong base on which to build writing and spelling The games then continue to follow the development of the foundation skills needed for reading until the last section of games where actual reading is introduced When the children reach the section of reading text it is presented in rhymes that they have already learnt This not only builds their confidence but also helps them to read with natural flow and tone The ability to recognise words in different fonts is also introduced at this stage Each game is presented in easy to follow steps like following a recipe The main aim of the game is briefly described followed by any equipment you might need and where you should play the game Equipment is kept minimal and simple and most games are designed to be played in and

around the home or garden This makes it easy for parents and children to decide at any time to play a game without much planning ahead An illustration for each game makes it easier to find when paging through quickly and stimulates your child's imagination and interest At the end of the book a series of worksheets is presented These are mostly lists of letters phonic blends and words presented in large bold font and with some grading to develop your child's ability to recognise letters and words in different fonts T *Teaching Your Child How to Read* Kathleen Fitzsimmons,2015-08-19 Kathleen Fitzsimmons a teacher for over twenty five years has written a book to make it easier for your child to learn to read The book explains what seems so difficult to see the process of reading It is a must have for parents with children with reading problems and parents who want to ensure their child's success in school Children are expected to be reading in kindergarten and this book will help parents see what is important in learning to read and start down that road to success before their child is in school Teaching Your Child How to Read A Guide for Parents is the perfect book to use in a parent organization or parent training

Teaching Your Child to Read Jessica Wang,Lu Jun,2022-02-01 Is your young child often disinterested in the books you bring home for them Do you wish they would develop a love for reading that they could take into middle school and beyond Some children love reading requesting the same books over and over again and giggling with delight each time while others simply despise sitting down for story time What makes the difference in these two types of children No child is born knowing how to read so where does their interest come from How do you encourage it Like eating and drinking reading is a daily necessity for every child Parents should consciously guide and conform to their children's interest in reading with appropriate reading materials whenever possible Books should take priority over watching television and playing video games Professional and systematic training can help children start to love reading maintain good reading habits and improve their reading ability Teaching Your Child to Read is a guide book for parents looking to get their children ages 3 to 6 interested in reading It explains how to help children cultivate reading ability step by step as well as answers the questions of Why should I and How do I when it comes to specific exercises Tools parents will learn to use in their efforts include interval questioning object comparing emotional contrasting plot mapping and more *Teach Your Child to Read in 100 Easy Lessons* Siegfried Engelmann,Phyllis Haddox,Elaine Bruner,1983 SRA's DISTAR is one of the most successful beginning reading programs available to schools Research has proven that children taught by the DISTAR method outperform their peers Now this program has been adapted for use at home In only 20 minutes a day this remarkable step by step program teaches your child to read with the love care and joy only a parent and child can share Copyright Libri GmbH All rights reserved **How To Teach Your Child To Read** ,2015-04-25 Dear Parents If you believe that teaching your child to read and helping your child develop proficient reading skills is the key to future success and if you wish to help your children develop to their fullest potential then you must read this book today **Teach Your Child to Read in 100 Easy Lessons** Phyllis Haddox,Siegfried Engelmann,Elaine Bruner,1986-06-15 A step by step program that shows parents simply and clearly
