The Routledge Handbook of Language and Culture Farzad Sharifian, 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture. It provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks. This Handbook features thirty-three newly commissioned chapters which cover key areas such as cognitive psychology, cognitive linguistics, cognitive anthropology, linguistic anthropology, cultural anthropology, and sociolinguistics. It offers insights into the historical development, contemporary theory, research, and practice of each topic and explores the potential future directions of the field. It shows readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning. Written by a group of prominent scholars from around the globe, The Routledge Handbook of Language and Culture provides a vital resource for scholars and students working in this area.

History of Multicultural Education Volume 5 Carl A. Grant, Thandeka K. Chapman, 2013-10-23 This benchmark 6-volume set documents, analyzes, and critiques a comprehensive body of research on the history of multicultural education in the U.S. The volumes reflect the tenets of multicultural education, its history, its present, and individuals whose work has contributed significantly to equity and social justice for all citizens. By collecting and providing a framework for key publications spanning the last 30-40 years, this set provides a means of understanding and visualizing the development, implementation, and interpretation of multicultural education in American society. The volumes do not promote any one scholar's or group's vision of multicultural education but include conflicting ideals that inform multiple interpretations. Each volume contains archival documents organized around a specific theme: Conceptual Frameworks and Curricular Content; Foundations and Stratifications; Instruction and Assessment; Policy and Governance; Students and Student Achievement; Teachers and Teacher Education. The historical time line within each volume illustrates the progression of research and theory on its theme and encourages readers to reflect on the changes in language and thinking concerning educational scholarship in that area.

Effective Approaches to Teaching Young Mexican Immigrant Children Julia Reguero de Atilas, 2002 Asian Bilingual Education Teacher Handbook John Young, John B. Lum, 1982 A guide to bilingual education for Asians contains chapters on bilingual and multicultural education characteristics, the learner, Asian and Asian American learners, bilingual program designs, methodology and classroom activities, instructional materials, and resources for Asian bilingual education programs and teacher competencies, staff development, and certification. Appendixes which make up 75% of the document include materials on compiling Asian bilingual curriculum, development materials, the question of literacy, and its application in Chinese bilingual education.

Acculturation and School Adjustment of Minority Students Elena Makarova, 2020-12-17 This book discusses the trajectories of minority students acculturation in terms of school and family related characteristics that are influential for school adjustment of minority youths The process that ethnic minority youth undergo while adjusting to the mainstream

culture is known as acculturation. Acculturation outcomes in the school context can be measured in terms of students' psychological well-being and their academic performance. For minority youth, family and school are the two main contexts of acculturation. The aim of the book is to provide multifaceted insights into the challenges that minority students as well as their parents and teachers encounter during the acculturation process and to illustrate the interplay between school and family-related factors of minority youths' school adjustment. Research teams from Germany, Hungary, Israel, Russia, Switzerland, and USA report findings from empirical studies on acculturation and school adjustment of minority students in schools of their respective countries. This book was originally published as a special issue of the journal *Intercultural Education*.
