Consequently, the review in this book provides the foundation for the conceptualization of the theoretical framework and conceptual meaning of all three parameters. This book also provides theories and conceptual meaning of Adult Education and Quality of Life. As this book is extracted from the author's research work, therefore, the later part of this book describes the research design, method of procedure, of research tool construction, data collection, analysis, and interpretation. The methodology followed during the research study includes survey research of two selected areas, i.e., urban and rural areas of the Ajmer District in Rajasthan. The research study envisages the benefits drawn by individual learners and all members of the community in the selected areas. In addition to field surveys, policy documents of the National Literacy Mission reports of the Government were also studied to understand the provision of Adult Education in the State of Rajasthan. Policy implications and recommendations for future researches are also illustrated in this book. The result of this research study indicates that literacy is the first step for achieving anything in life. This research work has signified that Adult Education has improved the Quality of Life of Neo-literates, especially for women.
