

What is Christian Science?

Mary Baker Eddy, who discovered and founded Christian Science, declared it as "the law of God, the law of good..." (Fundamental Divine Science). This deeper understanding of God as infinite Love and unending goodness leads to prayer that cures flesh, mind, and mortal sinners.

In 1822, a life-threatening injury compelled Mary Baker Eddy to turn automatically to God. She opened her Bible to an account of Jesus healing a man quickly and completely. As many times of God, Spirit, as the only reality, revealed her thoughts, and she was healed spontaneously. But she returned to Europe three and a half years later and returned home and died. For the next several years, she continued to search and find in the Bible the underlying laws of God that would free the basis of her sickness and practice of Christian Science.

Since then, many have found that when they have understood their relationship to God through the Science of Christian Healing, their health is restored and character transformed. And each healing brings us nearer to the Father, closer to His will, and nearer to the love that will save us.
