Teaching Artist Handbook, Volume One Nick Jaffe, Becca Barniskis, Barbara Hackett Cox, 2015-02-04 Originally published Chicago Columbia College Chicago Press 2013 Teaching Again Thomas S. Poetter, 2012-08-01 Teaching Again exposes the very human core of the teaching experience This book is not just about teaching English language arts it is about the heart and soul of the vocation that is teaching It is also not just about Tom Poetter the English teacher it is about every individual who has ever tried to educate whether that act has taken place in a classroom a church or synagogue a museum or at the kitchen table Teaching Again brings to life the dance of questions that vie for attention in the mind of a teacher How do I convince students that they want to learn to what I m trying to teach How do I make them understand that this is really actually important to them And perhaps most important how do I get them to like me and my discipline in the process These are the questions that all good teachers ask themselves at the beginning middle and end of every single day of their professional lives Every moment of teaching is a human transaction and Tom brings us right into the middle of that transaction He allows the reader to see and hear and feel the tension of the tightrope he has chosen to walk with these students The reader is right there for the thrilling ah ha moments and we experience the anguish of his defeats

Creative Teaching, Sustainable Learning Ulrike Sievers, 2017-11-09 There are many books on foreign language teaching this book is different because it focuses on the learner and the learning process It starts from the social nature of interactive learning and locates learning in a community of learners one of whom is the teacher The conditions for lasting learning in the foreign language are the basis for the teaching methods These aim to provide a rich and shared learning context offer individualised support and scaffolding for learning and make the language the medium for learning what learners are interested in as developing persons It makes teachers into reflective researchers of their practice thus ensuring that teaching is an art a craft and a science The best learning occurs when teachers can read the effects of their teaching on the learning behaviour of the pupils and are able to adapt their approach to be inclusive of all learning types The approach carefully developed in this book takes foreign language teaching and learning to a new level Without losing touch with its origins in Waldorf pedagogy it also draws on contemporary learning theory Above all it is an authentic account of the learning journey of a committed and caring teacher

Designing Effective Teaching and Significant

Learning Zala Fashant, Stewart Ross, Linda Russell, Karen LaPlant, Jake Jacobson, Sheri Hutchinson, 2023-07-03 Designing courses to deliver effective teaching and significant learning is the best way to set students up for success and this book guides readers through the process. The authors have worked with faculty world wide and share the stories of how faculty have transformed courses from theory to practice. They start with Dee Fink's foundation of integrating course design. Then they provide additional design concepts to expand the course blueprint to implement plans for communication accessibility, technology integration, as well as the assessment of course design as it fits into the assessment of programs and institutions and how faculty can use what they learn to meet their professional goals. *Light Within* John Main, 2013-01-26 This collection of talks on Christian meditation is full of practical advice and great spiritual insights in equal measure. It shows how discovering the presence of Christ within through meditative prayer can give shape and purpose to everything we do and are our actions, emotions, fears, longings, failings, and dreams. As John Main taught, the point of this kind of prayer is to allow God's presence to become not just a reality but the reality of our lives.
