Proceedings of the 5th International Conference on Research in Management and Technovation Nga Thi Hong Nguyen, José António C. Santos, Vijender Kumar Solanki, Anh Ngoc Mai, 2025-01-31. This book, bringing together selected papers from the 5th International Conference on Research in Management and Technovation, explores the global impact of technology, corporate management, and innovation. In a time of fast growth and widespread tech use, the relationship between business and technology has transformed at a rapid pace. From computers and automation to dealing with the effects of COVID-19, it highlights the need for forward-thinking leaders. Both new and established companies now prioritize blending business and technology in their plans, stressing the importance of creative strategies. The conference promotes an interdisciplinary

approach looking at how these areas connect instead of keeping them separate Beyond common tech practices like virtual meetings the book shows how business and technology affect decision making in uncertain situations The research shared in this book focuses on making practical plans for progress using innovations and technology seeing them as crucial tools for society and organizations Technology is portrayed as a helpful tool allowing managers strategists and researchers to make smart decisions that demonstrate the strength of business and technology in a constantly changing global landscape
