The Capitation Sourcebook Peter Boland, 1996 Here's a challenge to conventional wisdom that will change the way you think about capitation This hands on resource is a collection of articles detailing the most advanced methods used by leading healthcare operational experts on how to provide high quality care at less cost manage financial risk more efficiently design operational clinical and information systems to meet the needs of patients practitioners and managed care organizations structure financial incentives to promote successful collaborations and make the transition from fee for service to risk sharing arrangements You'll find practical examples of how to build the trust necessary to create win win solutions to problems that arise between competing yet interdependent interests of the various stakeholders Edited by

Peter Boland PhD and based on a best practices approach each of the articles in the book illustrate compensation methodologies that have been successfully implemented with the support of physicians and hospitals *Current Bibliographies in Medicine*, 1988 The Crisis in Clinical Research Edward H. Ahrens, 1992 The current crisis in clinical research cannot be fully appreciated unless the underlying economic sociological and motivational problems in American medicine are fully understood Accordingly this important book describes the evolution of biomedical research in relation to changes in institutional perceptions of the importance of each of the three roles that U S medical schools play teaching research and service to patients Ahrens meticulously analyzes seven very different kinds of research activity that are included under the term clinical research He describes the profound shift in emphasis from patient oriented research to research at the cellular and molecular level This shift has created an imbalance between two contrasting research approaches to the problems of human disease reductionism and integrative research In searching out the reasons for this change Ahrens carefully examines institutional supports for clinical research the medical school environment in which the research is carried out and the main funding source the National Institutes of Health This timely work identifies the fundamental differences between reductionism and integrative research and provides clear evidence that if both modes are to prosper in the future as they must then patient oriented research must receive far stronger support from U S medical schools and the N I H Ahrens masterfully argues that changes must be made in the special training of clinical investigators and in their funding requirements and that new working partnerships between clinically skilled M D s and technically trained Ph D s are urgently needed in order to restore patient oriented research to full productivity and to accomplish a re balancing that most effectively assures quality research in the future *Sickness, Recovery, and Death* James C. Riley, 1989

Deathright James M. Hoefler, 2019-04-02 Right to die issues are no longer confined to the back corridors of hospitals or the front pages of newspapers that trumpet news of Dr Kevorkian s latest assisted suicide A perverse combination of high tech medicine consumerism demographic trends and economic realities is forcing increasing numbers of Americans and their families to deal with **Postmodernism: A Bibliography, 1926-1994** Deborah L. Madsen, 2023-11-20 This is the first bibliography of Postmodernism to take account of work published in all subject areas and in all languages Deborah Madsen has identified a new first occurrence of the term in 1926 preceding by more than twenty years the first occurrence documented by the Oxford English Dictionary In a chronological listing books articles notes letters and working papers on Postmodernism are described with full bibliographical details Reviews of major books are documented and full contents listings are given for special issues of journals devoted to Postmodernism An appendix includes books on Postmodernism announced for publication in 1995 This bibliography brings together in one place all secondary material published on Postmodernism All disciplines are included from anthropology to zoology architecture cultural studies dance drama feminism fiction geography history legal studies literary theory mathematics medicine music pedagogical theory philosophy

photography and film poetry politics religion sociology the visual and plastic arts and others The bibliography also documents items in a range of languages other than English Chinese French German Italian Japanese Russian Slovenian Spanish and the Scandinavian languages Access to the information contained in the bibliography is made easy with a comprehensive index providing guidance according to author subject language and key words Postmodernism A Bibliography 1926 1994 is an essential reference text for anyone working in the area of contemporary culture studies Suffering and Healing in America Raymond Downing, Beverley Hancock, 2016-07-06 This book contains a foreword by Ron Pust Professor of Family Medicine University of Arizona USA Written by a practicing physician with 30 years experience both in America and Africa Suffering and Healing in America takes a critical look at Western health care and examines its weaknesses With a thought provoking rather than prescriptive approach this extraordinary book offers a new reasoning in health care learning from history and traditional cultures Suffering and Healing in America will be of great interest to all health care professionals and researchers with an interest in public health Religious and spiritual leaders will find this book a source of inspiration and policy makers and shapers worldwide will find plenty to inform and guide their thoughts on the future of health care in America and beyond It doesn't matter whether you are a provider or a consumer of health care whether in the USA or outside this book continues to draw keenly reflective cultural insights to challenge us all America has money and science but we may have abandoned the spiritual and social context of our lives and deaths In Africa and in many other places on our planet it is quite the opposite I invite you to explore these contrasts with Ray Downing This book's lessons have much to teach us Ron Pust in the Foreword

The Body of Compassion Joel Shuman, 2003-03-12 In *The Body of Compassion* Joel Shuman presents an important new theological treatment of contemporary bioethics weaving together personal experience a critical treatise on bioethics and an exploration of a Christian theological alternative The author first draws the reader toward a consideration of the current state of his grandfather a hardworking man with deep attachments to family and land who died a solitary death unaccompanied by loved ones in the unfamiliar and sterile world of a hospital Troubled by the way his grandfather died Shuman takes the reader along as he explores how modern medicine has distanced itself from dealing with people as living beings beyond their immediate physicality He examines how various approaches to bioethics over the past twenty years have tried to remedy this problem by prescribing certain standards for treatment and how each of these ultimately has fallen short due to the lack of a teleological concern for the body i.e. a concern for what the body is actually for in a larger context From this point Shuman deftly moves to a discussion of the centrality of the body to Christianity focusing on how baptism participation in the liturgy and the partaking of the Eucharist all serve to unite Christians as one in the body of Christ For Christians the author argues the body does not just belong to the individual but rather is one with the community of the Church With this in mind Shuman proposes a new kind of bioethics for Christians where care for the body of Christ becomes the model of how we should care for and receive care from each other This fresh and thought provoking book is sure to be of

interest to ethicists medical professionals and everyone who is troubled by the conflicts between science and religion

Social Marketing Marvin E. Goldberg, Martin Fishbein, Susan E. Middlestadt, 2018-07-06 Social Marketing marketing in the service of societal problems Does this approach represent dangerous social engineering or is it the best hope we have to treat what are often regarded as intransigent problems For both academics and practitioners involved with social marketing the domain remains in its infancy Programs and approaches are being developed and implemented by practitioners academics are defining what it is where it comes from and where it is going This book incorporates many of the presentations made at the Role of Advertising in Social Marketing Conference sponsored by the Society for Consumer Psychology Professionals from academia government and non government organizations address a highly diverse and interesting set of societal concerns ranging from organ donation to violence in sports from efforts to promote safe sex and family planning to better understand cigarette smokers and their perceptions Are marketing s four Ps product price place and promotion enough to help solve these problems or does social marketing at the end of the 1990s need to call on other Ps such as political persuasion This volume thoughtfully addresses theoretical and empirical issues challenging academics and practitioners alike to find out how to borrow the best of marketing for application in social marketing **Current Catalog**, 1989 First multi year cumulation covers six years 1965 70

Technology Bureaucracy And Healing In America: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Technology Bureaucracy And Healing In America : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Technology Bureaucracy And Healing In America : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
