

An aerial photograph of a large concrete dam spanning a wide river. The river flows from the top of the frame towards the bottom, where it is held back by the dam. The water upstream of the dam is a vibrant turquoise color, indicating a high concentration of sediment or glacial melt. The surrounding landscape is densely forested with dark green trees. A winding road or path is visible on the right side of the river, curving around the bend. The overall scene is a natural, rugged environment.
