Technology And Management In Library And Information Services:

Technology and Management in Library and Information Services Frederick Wilfrid Lancaster, Beth Sandore, 1997-01-01
This text investigates the possibilities of new interactions between technology and management in libraries and information centres. The authors examine not only the management of technology but the potential of computer and related technologies to facilitate or improve management.

Handbook of Technology and Management in Library and Information Services Flevr Dabrowask (ed), 2015
Library and Information Service Management: Innovative Approaches Pasquale De Marco, 2025-08-09

Library and Information Service Management: Innovative Approaches provides a comprehensive overview of the field covering a wide range of topics from planning and managing library and information services to staffing, directing and controlling these services. It also discusses the impact of technology on libraries, the legal and ethical environment of library and information services, and the future of the field. This book is written for library and information science students and professionals who want to learn more about the field. It is also a valuable resource for anyone who is interested in the role of libraries and information services in society. In this book, you will learn about the different types of libraries and information services, the planning and management of library and information services, the staffing and directing of library and information services, the control of library and information services, the impact of technology on libraries, the legal and ethical environment of library and information services, the future of library and information services. This book is divided into 10 chapters. Each chapter covers a different topic related to library and information services. The chapters are: 1. The Evolving Landscape of Library and Information Services, 2. Planning and Managing Library and Information Services, 3. Staffing Library and Information Services, 4. Directing Library and Information Services, 5. Controlling Library and Information Services, 6. Technology and Library and Information Services, 7. The Political, Economic and Social Environment of Library and Information Services, 8. The Legal Environment of Library and Information Services, 9. The Ethical Environment of Library and Information Services, 10. The Future of Library and Information Services. Each chapter is divided into five sections. Each section covers a different topic related to the chapter topic. The sections are: 1. Introduction, 2. Discussion, 3. Case Study, 4. Conclusion, 5. References. This book is a valuable resource for anyone who wants to learn more about library and information services. It is written in a clear and concise style and it is packed with information.
