

The Spiritual Exercises with Teilhard de Chardin

Sunday, September 22, 2024 1 pm EDT | ZOOM

Presenter: Agustin Udias, SJ, professor emeritus of Geophysics, Universidad Complutense, Madrid, a member of the European Academy and corresponding member of the Royal Academy of History

Respondent: Margie Thompson, SSJ, MFA, artist and spiritual director

For Teilhard, the Spiritual Exercises of St. Ignatius must be adapted to the new circumstances and desires of a world influenced by the progress of science and technology. With the help of passages from Teilhard's retreat notes, Udias suggests new ways to implement Teilhard's suggestions.

Technology And The Healing Of The Earth Teilhard Studies:

Technology and the Healing of the Earth Thomas Berry, 1986 **America's Teilhard** Susan Kassman Sack, 2019

America's Teilhard Christ and Hope in the 1960s is a study of the reception of Teilhard in the United States during this period and contributes to an awareness of the thought of this important figure and the impact of his work. Additionally, it further develops an understanding of U.S. Catholicism in all its dimensions during these years and provides clues as to how it has unfolded over the past several decades. Susan Sack argues that the manner and intensity of the reception of Teilhard's thought happened as it did at this point in history because of the confluence of the then developing social milieu, the disintegration of the immigrant Catholic subculture, and the opening of the church to the world through Vatican II. Additionally, as these social and historical events unfolded within U.S. culture during these years, the way Teilhard was read and the contributions which his thought provided changed. This book considers his work as a carrier at times for an almost Americanist emphasis upon progress, energy, and hope. In other years, his teleological understanding of the value of suffering moves to center. Additionally, the stories of numerous persons—scientists, theologians, politicians, and scholars—who became involved in the American Teilhardian effort are detailed.

The Intellectual Journey of Thomas Berry Heather Eaton, 2014-04-02

Thomas Berry had a gentle yet mesmerizing and luminescent presence that was evident to anyone who spent time with him. His intellectual scope and erudite manner were compelling, and the breadth, depth, clarity, and elegance of his vision was breathtaking. Berry was an intellectual giant and cultural visionary of extraordinary stature. Thomas Berry's vast knowledge of history, religions, and cultural histories is a unique blend revealing a genuine original thinker. The ecological crisis in all its manifestations came to dominate Berry's concerns. He perceived that the greatest need was to offer the possibility of a viable future for an Earth community. Many know of his proposal for a functional cosmology, the need for a new story, and a vital Earth-sensitive spirituality. Few know of his rich and varied intellectual journey. *The Intellectual Journey of Thomas Berry: Imagining the Earth Community* is about the roots and insights hidden within his ecological spiritual proposal. These essays, written by experts on Thomas Berry's work, probe into and reveal distinct themes that permeate his work in gratitude for his contribution to the Earth.

Thomas Berry Tucker, Mary Evelyn, Grim, John, 2016-01-12

Thomas Berry 1914-2009 was a priest, a geologist, and a historian of religions. He was an early and significant voice awakening religious sensibilities to the environmental crisis. He is particularly well known for articulating a universe story that explores the world-changing implications of contemporary science. Berry pointed the way to an ecological spirituality attuned to our place in nature and giving rise to an ethic of responsibility and care for the Earth.

Between Science and Religion Phillip M. Thompson, 2009-08-15

In exploring the role of Catholic intellectuals in engaging science and technology in the twentieth century, this book initially provides a background context for this evolution by examining the Modernism crisis in the first chapter. In order to unpack the subsequent evolution, Thompson then concentrates in separate chapters on the distinctive

contributions of four specific Catholic intellectuals Jacques Maritain 1882D1973 Pierre Teilhard de Chardin 1881D1955 Bernard Lonergan 1904D1984 and Thomas Merton 1915D1968 All of these intellectuals experienced some degree of official restraint in their efforts but through their distinctive intellectual trajectories they contributed to a different engagement of the Church with science and technology In the final chapters the book first reviews the changes within the institutional Church in the twentieth century toward science and technology Finally it then applies some key ideals of the four intellectuals to anneal and extend John Paul II s approach of critical openness to suggest how the Church can now engage science and technology

Living Cosmology Tucker, Mary Evelyn,Grim, John,2016-04-13 Teilhard Lexicon Sion Cowell,2004-06-01 Written to enable researchers and students to better understand the specialised language of Teilhard s transdisciplinary approach which he found himself compelled to develop as a means of expressing that extraordinary vision of a universe in process of convergence towards a cosmic centre of unity he identifies with the Cosmic Christ

Green Witness Laura Ruth Yordy,2010-04-29 A call for the reappraisal of why Christians can and should work towards the wholeness of the biophysical environment Green Witness explores the church s role as exemplar in striving towards the fulfillment of God s promise of peace health and diversity to his Kingdom An insightful work in theological ethics

Teilhard in the 21st Century Arthur Fabel,2003 Almost fifty years after his death the work of Pierre Teilhard de Chardin French Jesuit mystic and scientist continues to shape contemporary work in spirituality theology and the interaction of science and religion These essays show how this giant of the twentieth century sheds light on the most urgent spiritual challenges of our time Book jacket
