Technology Economic Growth And Crises In East Asia:

Technology, Economic Growth and Crises in East Asia G. Chris Rodrigo, 2001 This important book develops an evolutionary conception of growth in East Asia in which technology organizations and institutions interact and co evolve to advance productivity Episodic crises are seen as disruptions which bring to the fore structural and institutional flaws that need reform The author begins with a thorough analysis of the neo classical theory of technical change and shows that it fails to capture crucial aspects of the various learning processes involved He goes on to develop a comprehensive framework for understanding technological progress Productivity growth is seen as deriving from knowledge hard coded in equipment and structures and soft coded in human skill organizations and institutions that guide economic activity The role of exports in promoting faster growth is also examined as are the channels of technological capability acquisition This book will be welcomed by academics policymakers students government bodies and business people interested in East Asian growth and in understanding technological change in general

Can East Asia Compete? Simon J. Evenett, Shahid Yusuf, 2002-09-27 East Asian economies of the 1980s and much of the 1990s were among the most competitive exporters of manufactured products and were also able to sustain growth rates far higher than those of other countries developing or industrial However the economic crisis of 1997 98 impacted the economies of these countries Although recovery began fairly quickly in some countries others have yet to regain their growth momentum Can East Asia Compete looks at whether or not East Asia can restore its near magical performance or is its competitive strength beginning to wane This volume argues that East Asian countries have far from exhausted their growth potential However future competitiveness will depend on much greater innovative capability in manufacturing and services innovativeness that is grounded in stronger institutions improved macroeconomic policies and closer regional coordination Can East Asia Compete clearly summarizes the issues currently being debated and provides guidance to East Asian economies on how to deal with the policy concerns that lie ahead

The financial crisis that hit a number of miracle economies of Asia in 1997 shocked the world Financial Liberalization and the
Asian Crisis rejects conventional explanations of the crisis as the outcome primarily of inefficient and corrupt economics
systems in the countries concerned It argues that the crisis was the result of premature and overly rapid financial
liberalization in a world of increasing financial liquidity and volatility and calls for a more cautious approach to financial
liberalization and a reform of the international financial architecture *World Economic Outlook, October 1998*
