Sticking Together Jaclyn S. Gerstein, 2013-08-21 First published in 2000. Experiential family counseling is an action oriented approach to family therapy. Through the use of structured games and physical and intellectual challenges many clinicians find that they are able to gain insight into the behaviors and responses that perpetuate a family's problems. While traditional treatment methods often become bogged down in verbal sparring or blame placing between family members experiential counseling calls for families to work together to succeed in overcoming obstacles that are set before them. And because many experiential activities can be designed as metaphors for a family's individual problems counselors using this treatment method are given an excellent opportunity to help families practice actual solutions that can be used in their daily interactions and experiences. In *Sticking Together* Jackie Gerstein has given therapists and family counselors a wonderful tool for introducing experiential counseling into their own practices. In addition to a thoughtful overview of the general uses and benefits of this unique technique she also provides practical guidelines for developing experiential family counseling sessions. Key features include: A core section of experiential activities games and exercises for family therapy. Cautions that should be observed when using these activities with certain populations. Detailed processing questions with each exercise that can help families to interpret the results of experiential activities. Suggestions to encourage family goal setting. A discussion on the need for ongoing assessment during the course of experiential therapy. Samples of important documents necessary in experiential therapy programs including performance agreements and informed consent forms. With an easy to use format *Sticking Together* offers readers an extensive selection of family building

initiatives that promise to introduce fun into the vocabulary of family therapy *Family-Focused Treatment for Child and Adolescent Mental Health* Paul Sunseri, 2023-12-22 This book is designed as a treatment manual for using family based treatments with children struggling with mental illness supporting both family therapists and the families they are helping Based on over 40 years of research it has been shown that involving the entire family in treatment is effective However family therapy is still not used as a first line of treatment Paul Sunseri explains and explores why family based approaches should be used with struggling young people and how this can be applied in practice Chapters discuss the causes contributors and social determinants for the rise in childhood mental illness and provide empirical evidence and treatments for working with children and adolescents suffering from self harm suicidal ideation anxiety anger and depression Filled with case studies throughout the book also touches on mitigating the effects of screen time in our increasingly technological lives and interventions to help reluctant children participate in therapy This book will be invaluable reading for graduate level students clinicians in training and fully licensed clinicians such as psychologists psychiatrists marriage and family therapists and clinical social workers The book is also a practical resource for parents and other caregivers it pulls back the curtain on therapy and teaches parents exactly what to do to best love and support their child at a time when they need it the most

Living and Thriving in the Parent-Teen Relationship Angele Suarez, Stephanie Iles, 2023-06-13 You ve spent the first twelve years of your child s life guiding
disciplining and playing only to transition into the teenage years where you feel like none of this mattered It does matter The
teenage years can be a struggle for most parents because trying to connect with your teenager as a parent can feel hopeless
at times Trying to understand your teen s logic choices and actions is more than a full time job it is a commitment to chaos
and hoping you come out alive when it is all over This book is meant to provide helpful information tips and guidance so that
you don t dread the teen years We believe that you can live and thrive in your relationship together and see your teen
become the adult they are meant to be We focus on some key aspects of a relationship our THRIVE model to give you tools to
enhance the time you have with your teen Trust Building trust means being honest with yourself and your teen It s being
consistent in your reactions and clear with your expectations It means following through every time Heal To heal your family
you must understand the whole system It is understanding your struggle separate and in conjunction with your teen It is
finding the humility to be weak and imperfect and then accepting the imperfectness of it all It is being courageous enough to
implement change Respect To have respect it must be mutual Loving your teen for who they are speaking honestly and using
a kind tone model the kind of respect you would want from them Respect can also be defined as respecting yourself and who
you are as a parent knowing your strengths and understanding when you need to ask for help Invite This is the core of
collaboration Inviting your teen to participate with you Validate Validating that everyone has their own set of emotions that
have value is very impactful for the family system Honoring those feelings and listening to each other will build relationships
and create healthy adults Enjoy Have fun Enjoy your family Enjoy your teen *The Church Leader's Counseling Resource
