Tel Quel:

The Tel Quel Reader Patrick Ffrench, Roland-François Lack, 1998 The Tel Quel Reader presents for the first time in English many of the key essays that played an instrumental role in shaping the contours of literary and cultural debate in the 1960s and 1970s Tel Quel was a French journal and publishing team that printed some of the earliest work by Derrida Bataille Kristeva Barthes Foucault and Deleuze From its beginning in 1960 to its closure in 1982 TQ published some of the key essays of major poststructuralist thinkers The Reader includes essays available in English for the first time by Kristeva and Foucault and a fascinating interview with Barthes It provides a unique insight into the poststructuralist movement and presents some of the pioneering essays on literature and culture gender film semiotics and psychoanalysis Although articles included here cover diverse areas from the semiology of paragrams to the readability of Sade a common perspective runs through them the recognition of excess and the seduction of writing The Tel Quel Reader fills a crucial gap in the English literature on literary and cultural theory and presents a case for the enduring value of the journal's enterprise

Jacques Lacan & Co Elisabeth Roudinesco, 1990-10-29 Roudinesco provides a finely drawn map of the intellectual debates within French psychoanalysis especially under the influence of the German emigrés during the 1930s and 1940s She is a good historian in that she provides not only a narrative history but also extensive passages from Lacan's own oral history interviews with the various figures so that we have not only her commentary but some flavor of the original documentation Many of the quotes are gems Sander Gilman *Bulletin of the History of Medicine*

Understanding Kristeva, Understanding Modernism Maria Margaroni, 2022-11-03 Julia Kristeva has revolutionized the study of modernism by developing a theoretical approach that is uniquely attuned to the dynamic interplay between on the one hand linguistic and formal experimentation and on the other hand subjective crisis and socio-political upheaval Inspired by the contestatory spirit of the late 1960s in which she emerged as a theorist Kristeva has defended the project of the European avant-gardes and has systematically attempted to reclaim their legacy in the new societal structures produced by a global spectacle dominated capitalism *Understanding Kristeva Understanding Modernism* brings together essays that take up the threads in Kristeva's analyses of the avant-garde offering an appreciation of her overall contribution the intellectual and political horizon within which she has produced her seminal

Kauppi,2016-09-17 An invisible pattern draws together most studies dealing with French cultural radicalism in the 1960s with intellectual creation reduced to individual creation and the role of semiotic and social factors that influence intellectual innovation minimized Sociological approaches often see a more or less external link between social location and intellectual production but because of their structural approach they are incapable of taking into account unique historical circumstances the crucial role of personal impulses and more importantly the semiotic logic of ideas as conditions of innovative thinking This ground breaking book will further an internal sociological analysis of ideas and styles of thought It will show that the defining but largely neglected feature of what has become French theory was a collective mind and style of thought an explosive but fragile mixture of scientific and political radicalism that rather quickly watered down to academic orthodoxy For some time radical intellectuals succeeded in producing ideas that were perfectly in tune with the demands of the consumers mostly the young university audience Ideas were used as part of radical posture that was set in opposition to the establishment and those in power Ideas could not be too empirical or verifiable and they had to shock It is not surprising that a slew of new sciences and concepts were invented to indicate this radical posture The central argument of this study is that ideas become power ideas only if they succeed in uniting individual and collective psychic investment in powerful social networks with significant institutional and political backing These conditions were met in the French context for a certain specific period of time From roughly the mid 1960s to the beginning of the 1970s radical intellectuals such as Roland Barthes Pierre Bourdieu Jacques Derrida Michel Foucault Julia Kristeva developed a host of new ideas concepts and theories a number of which have subsequently been labelled as French theory **Oriental Prospects** C. C. Barfoot,Theo d'.

Haen,1998 A great deal of stimulating and valuable discussion as well as some indignation and hot air has been stimulated by

Edward Said whose provocative study of Orientalism Western Conceptions of the Orient appeared twenty years ago This present book will we believe be recognized as a worthy addition to the many attempts that have since been made to sift the intrinsic and ingrained attitudes of West to East The fifteen articles in Oriental Prospects Western Literature and the Lure of the East cover literature from the Renaissance through the eighteenth and nineteenth centuries to the modern period some in pragmatic accounts of responses to and uses of experiences of the Orient and its cultural attitudes and artefacts others contending more theoretically with issues that Edward Said has raised Despite all the misunderstanding prejudice and propaganda in the scholarly and literary depiction of the Orient still today as in the past what emerges from this wide range of articles is that no species of literary text or academic study can appear without risking the accusation of escapist exoticism or cultural and economic exploitation and thus regrettably masking the essential and vital significance of the political and the real and imaginative trading between East and West

Revolt, Affect, Collectivity Tina Chanter, Ewa Plonowska Ziarek, 2012-02-01 These original essays explore how the concept of revolution permeates and unifies Julia Kristeva's body of work by tracing its trajectory from her early engagement with the Tel Quel group through her preoccupation in the 1980s with abjection melancholia and love to her latest work Some of the leading voices in Kristeva scholarship examine her reevaluation of the concept of revolt in the context of the changing cultural and political conditions in the West the questions of the stranger race and nation her reflections on narrative public spaces and collectivity in the context of her engagement with Hannah Arendt's work her development and refinement of the notions of abjection melancholia and narcissism in her ongoing interrogation of aesthetics as well as her contribution to film theory Focused primarily on Kristeva's newest work much of it only recently translated into English this book breaks new ground in Kristeva scholarship
