**Network Journalism** Ansgard Heinrich,2011-04-26 Drawing on current theoretical debates in journalism studies and grounded in empirical research Heinrich here analyzes the interplay between journalistic practice and processes of globalization and digitalization She argues that a new kind of journalism is emerging characterized by an increasingly global flow of news as well as a growing number of news deliverers Within this transformed news sphere the roles of journalistic outlets change They become nodes arranged in a dense net of information gatherers producers and disseminators The interactive connections among these news providers constitute what Heinrich calls the sphere of network journalism

*The Dooleys of Richmond* Mary Lynn Bayliss,2017-05-15 The Dooleys of Richmond is the biography of two generations of a dynamic and philanthropic immigrant family in the urban South While most Irish Catholic immigrants who poured into the region in the nineteenth century were poor and illiterate John and Sarah Dooley were affluent and well educated They brought sophistication and capital to Virginia where John established one of the largest hat manufacturing companies in the United States Noted for their business acumen and community service the Dooleys became leaders in business education culture and politics in Virginia A bellwether of the South during these tumultuous times the Dooleys fortunes would rise and fall and rise again Mary Lynn Bayliss recounts the family s history during their prosperous antebellum years John and his sons service in the Confederate army John s exploits as leader of the Richmond Ambulance Committee and the loss of the entire Dooley retail and manufacturing operations during the final days of the Civil War After the war the Dooleys son James a leading Richmond lawyer and philanthropist devoted half a century to developing railroad networks across the United States and became a key figure in the industrialization of the New South He and his wife Sallie built Maymont the famed Gilded Age estate that remains a major attraction in Richmond The story of the Dooleys is a fascinating window on southern society and the people who shaped its grand and turbulent history

*Masterworks of Technology* E. E. Lewis,2010-05 In this absorbing exploration of technological creativity throughout the ages E E Lewis professor of mechanical engineering at Northwestern University eloquently tells the story of how science and engineering which had little in common until a few hundred years ago came together to create the technological world of the 21st century Today s technology is the product of a fascinating synergy of science s search for comprehension of the material universe and engineering s drive to build things and make them work In the 20th century this synergy achieved many unprecedented

successes the most spectacular of which is arguably the first moon landing of the Apollo program Rocket science now symbolic of humanity's most complex technological endeavors is the culmination of centuries of achievements by architects of pyramids and cathedrals medieval craft guilds and pioneering inventors and scientists from the Renaissance through the Industrial Revolution Melding his own personal experiences from visiting Chartres Cathedral to flying aboard a Boeing 777 with vivid historical vignettes the author skillfully demonstrates the importance of craft tradition scientific method production organization economics and more to the creation of modern technology The many topics that Lewis illuminates include the slow evolution of the wheelwright's craft the background and training of the architect engineers who undertook the construction of medieval cathedrals the importance of patronage and venture capitalists in realizing the big ideas of past and present the increasing use of visualization as seen in Leonardo's notebooks Galileo's immense contribution of bringing science and engineering together the increasing importance of basic science as the seedbed of engineering and design innovations the challenge of attempting unprecedented feats while minimizing risk as exemplified by space flight and much more Whether Lewis is discussing the distribution of weight along flying buttresses the challenges faced by Morse in engineering the telegraph or the Apollo program's monumental team effort the author's deep knowledge of and enthusiasm for his subject and his gift for engaging lively prose make for a fascinating exploration of science and engineering through the ages E E Lewis Evanston IL the former chair of the Department of Mechanical Engineering is professor of mechanical engineering at the McCormick School of Engineering and Applied Science at Northwestern University He is the author of three engineering textbooks and numerous journal articles

**Adolphe Gouhenant** Paula Selzer, Emmanuel Pecontal, 2019-10-15 Adolphe Gouhenant tells the story of artist revolutionary and early North Texas resident Francois Ignace Adolphe Gouhenant 1804 1871 Born at the dawn of the Romantic era Gouhenant traveled from a small village near the foothills of the Alps to France's second largest city where he built a monument to the arts and sciences atop Lyon's famous Fourviere Hill His wildly ambitious schemes landed him in court and ultimately devastated him financially Participating in clandestine revolutionary organizations Gouhenant organized a secret meeting under the guise of a Masonic banquet and was later imprisoned for conspiracy against the monarchy

Aligning himself with the early communist movement Gouhenant advocated for workers rights and was selected by well known Icarian communist Etienne Cabet to lead an advance guard on a treacherous journey across the Atlantic to settle a utopian colony in North Texas Despite broken wagons severe weather and lack of food he navigated overland from New Orleans in 1848 to establish a small settlement in Denton County The community beset by hardships ultimately scapegoated Gouhenant and accused him of being a French agent deliberately sent to lead the group to destruction into the wilds and for this treason they shaved his head and beard and expelled him from the colony which collapsed shortly thereafter Gouhenant then journeyed to Fort Worth to teach the federal soldiers French and art and next to Dallas where he founded the town s first arts establishment in the 1850s He set up shop as a daguerreotypist and photographed the town s early residents His Arts Saloon was the scene of many exhibitions and dances but ultimately became the high stake in a nasty battle among Dallas s leading citizens setting legal precedent for Texas homestead law Gouhenant s death in a freak railroad accident left behind mysterious claims that contribute one last chapter to this amazing man s story

**“All-Electric” Narratives** Rachele Dini, 2021-10-07 Winner of the 2023 Emily Toth Award for Best Single Work in Women s Studies All Electric Narratives is the first in depth study of time saving electrical appliances in American literature It examines the literary depiction of refrigerators vacuum cleaners oven ranges washing machines dryers dishwashers toasters blenders standing and hand held mixers and microwave ovens between 1945 when the all electric home came to be associated with the nation s hard won victory and 2020 as contemporary writers consider the enduring material and spiritual effects of these objects in the 21st century The appropriation and subversion of the rhetoric of domestic electrification and time saving comprises a crucial but overlooked element in 20th century literary forms and genres including Beat literature Black American literature second wave feminist fiction science fiction and postmodernist fiction Through close readings of dozens of literary texts alongside print and television ads from this period Dini shows how U S writers have unearthed the paradoxes inherent to claims of appliances capacity to give back time to their

user transport them into a technologically progressive future or return them to some pastoral past In so doing she reveals literary appliances role in raising questions about gender norms and sexuality racial exclusion and erasure class anxieties the ramifications of mechanization the perils and possibilities of conformity the limitations of patriotism and the inevitable fallacy of utopian thinking while both shaping and radically disrupting the literary forms in which they operated

**Disrupting Copyright** Margery Hilko,2021-02-09 New innovations are created every day but today s business leaders are focused on finding disruptive innovations which are cheaper and lower performing than upmarket technologies They create new markets and challenge the status quo of existing technological thinking creating uncertainty both in the future of the innovation and the outcome of the market upheaval Disruptive innovation is an influential innovation theory in business but how does it affect the law Several of these technologies have brought new ways for individuals to deal with copyright works while disrupting existing market expectations while their ability to spawn social norms has presented challenges for legislation Considering disruptive innovation as a class this book examines innovations that have impacted copyright in the past what lessons can be learned from how the law interacted with them and how the law can successfully deal with them going forward Creating comprehensive guidance that can be used when faced with disruptive innovations with the aim of more successful legislation it considers whether copyright law itself has been disrupted through these innovations Exploring whether disruptive innovations as a class have unique properties that necessitate action by legislators and whether these properties have the possibility to disrupt the law itself this book theorises how the law should deal with disruptive innovations in general going beyond a discussion of the regulation of specific innovations to develop a framework for how law makers should deal with disruptive innovations when faced by one

**Radiotelegraph & Radiotelephone Codes, Prowords and Abbreviations** John W Alcorn VK2JWA,2013-10-26 What started out as a minor Project in 1987 blew out like the national debt so with all this accumulated info it seemed worthwhile to produce the first book here now is the Latest Online Edition The sources and references have been many and varied and although the utmost care was taken the Lists are far from complete and may contain errors The original Codes etc were designed principally for marine use as this was the field in which radio was initially developed The majority retain this influence but many have been modified and modernized to cover land and air applications Technical terms have also varied as technology has changed however most abbreviations of the computer age have been omitted These are specialist terms of that mode not often encountered in telegraphy

**A Phone of Our Own** Harry G.
