Television and Social Control J. Mallory Wober, Barrie Gunter, 1988 Examines the role and influence of television on our Society *Television in a Free Society* Royal Television Society (Great Britain). Cambridge Convention, 1979 Television and Society Nicholas Abercrombie, 1996-05-01 Television and Society is a textbook designed to introduce students to the role of television in contemporary society It explores the structure of the television text the way in which that text is produced and the way it is consumed The first section deals with the analysis of television programmes as texts It covers for example the issues of realism narrative genre and ideology the domestication of television programming and the nature of soap opera and news The section on the production of television deals firstly with the structure of the industry as a whole the ways in which television is financed and distributed the globalization of television and media imperialism and the political economy of television This is followed by a consideration of the internal workings of television organizations including the role of the producer the functioning of the production team the television personality and the producer's perceptions of the audience The final section investigates theories of the television audience and combines qualitative and quantitative studies There is discussion on the history of audience research methods of measuring the audience the domestic context of viewing and television talk Clearly written Television and Society will be an ideal textbook for students in media studies cultural studies and the sociology of culture

Understanding Society, Culture, and Television Paul Monaco, 2000-09-30 What is the real nature of television and what is its place in contemporary society and culture In a provocative rethinking of the medium and its ensuing effects this book argues that we have misunderstood television and have thus contributed to a distorted view of art and culture in the 20th century During the final quarter of this century both in academic and popular circles we have spread wildly exaggerated claims about television's undermining of human consciousness and behavior Television has become a scapegoat for all sorts of societal and cultural ills The arguments presented by many researchers on behalf of the ill effects of TV are fundamentally weak and flawed On the eve of the 21st century the claimed distinctions between high art and popular culture have become a final hopeless repository of pedantry Television can be understood only by viewing it as an art form and measuring its role in society and culture in concert with the first principles of human reason and liberty
