Television Whats On Whos Watching And What It Means:

A One-Man Show? The Construction and Deconstruction of a Patriarchal Image in the Reagan Era John-Paul Trutnau, 2005-03-31 This book is a comprehensive analysis of Michael Mann's *Miami Vice* with insight into the social political and cultural mechanics Deconstructing a Patriarchal Image not only sheds light on the series audio visual poetics but also illustrates the lifestyle and trends of 1980s America A must have for fans of *Miami Vice* and readers interested in 1980s popular culture *Television and Behavior: Summary report*, 1982 [Sex and Violence on TV](#) United States. Congress. House. Committee on Interstate and Foreign Commerce. Subcommittee on Communications, 1977 *International Guide to Student Achievement* John Hattie, Eric M. Anderman, 2013-01-17 The *International Guide to Student Achievement* brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs [Soft News Goes to War](#) Matthew Baum, 2003 No detailed description available for *Soft News Goes to War* *Social Work Research and Evaluation Skills* Frederic G. Reamer, 1998 Reamer demonstrates how case workers program directors and administrators evaluate the effectiveness of interventions conduct needs assessments draw on empirically based literature and findings to inform their practice and finally create and disseminate information for use by other professionals **Disaffected Democracies** Susan J. Pharr, Robert D. Putnam, 2018-06-05 It is a notable irony that as democracy replaces other forms of governing throughout the world citizens of the most established and prosperous democracies the United States and Canada Western European nations and Japan increasingly report dissatisfaction and frustration with their governments Here some of the most influential political scientists at work today examine why this is so in a volume unique in both its publication of original data and its conclusion that low public confidence in democratic leaders and institutions is a function of actual performance changing expectations and the role of information The culmination of research projects directed by Robert Putnam through the Trilateral Commission and the American Academy of Arts and Sciences these papers present new data that allow more direct comparisons across national borders and more detailed

pictures of trends within countries than previously possible They show that citizen disaffection in the Trilateral democracies is not the result of frayed social fabric economic insecurity the end of the Cold War or public cynicism Rather the contributors conclude the trouble lies with governments and politics themselves The sources of the problem include governments diminished capacity to act in an interdependent world and a decline in institutional performance in combination with new public expectations and uses of information that have altered the criteria by which people judge their governments Although the authors diverge in approach ideological affinity and interpretation they adhere to a unified framework and confine themselves to the last quarter of the twentieth century This focus together with the wealth of original research results and the uniform strength of the individual chapters sets the volume above other efforts to address the important and increasingly international question of public dissatisfaction with democratic governance This book will have obvious appeal for a broad audience of political scientists politicians policy wonks and that still sizable group of politically minded citizens on both sides of the Atlantic and Pacific
