**Story in Children's Lives: Contributions of the Narrative Mode to Early Childhood Development, Literacy, and Learning** Kelli Jo Kerry-Moran, Juli-Anna Aerila, 2019-09-27 This book is based on the power of stories to support children in all areas of their lives. It examines the role narratives can play in encouraging growth in contexts and domains such as personal and family identity, creative movement, memory and self-concept, social relationships, or developing a sense of humor. Each chapter describes innovative and research-based applications of narratives such as movement stories, visual narratives to develop historical thinking, multimodal storytelling, bibliotherapy, mathematics stories, family stories, and social narratives. The chapters elaborate on the strength of narratives in supporting the whole child in diverse contexts: from young children on the autism spectrum improving their social skills at school to four and five-year-olds developing historical thinking to children who are refugees or asylum seekers dealing with uncertainty and loss. Written by accomplished teachers, researchers, specialists, teaching artists, and teacher educators from several countries and backgrounds, the book fills a gap in the literature on narratives. This work delves into the topic of narratives in young children's lives with a breadth of topics and depth of study not found elsewhere. Collectively, the insights of the contributors build a convincing case for emphasizing story across the various disciplines and developmental domains of the early childhood years. The writing style is scholarly yet accessible. Authors used a wide array of visual material to make their points clearer and show the reader what meaningful uses of story look like. **Many Peoples, One Land** Alethea K. Helbig, Agnes Regan Perkins, 2000-10-30 Celebrating the wealth of quality multicultural literature recently published for children and young adults, this valuable resource examines the fiction, oral tradition, and poetry from four major ethnic groups in the United States. Each of these genres is considered in turn for the literature dealing with African Americans, Asian Americans, Hispanic Americans, and Native American Indians. Taking up where their earlier volume *This Land is Our Land* left off, Helbig and Perkins have teamed up once again to identify and expertly evaluate more than 500 multicultural books published from 1994 through 1999. Both considered authorities in the field of children's literature, the two of them personally selected, read, and evaluated all the books included here. Their insightful annotations help readers carefully consider both literary standards such as plot development, characterization, and style, as well as cultural values as they are represented in these cited works. Each entry also indicates the suggested age and grade level, appropriateness of the work. With the proliferation and ever-increasing popularity of multicultural literature for children and young adults, this sensitively written volume will serve as an invaluable collection development tool. Teachers as well as librarians will find the comprehensiveness and organization of this bibliography helpful as a guide in selecting appropriate materials for classroom use. Even students will find this book easy to use with its five indexes identifying works by title, writer, illustrator, grade level, and subject. Public libraries and school media centers will find much use for *Many Peoples, One Land*.
