**Protest and Possibility in the Writing of Tillie Olsen** Mara Faulkner,1993 Tillie Olsen s fiction and nonfiction portray with all their harsh contours the lives of people who cannot speak for themselves or whose words have been forgotten or ignored Olsen s writing is neither serene nor despairing In this sensitive thematic reading Mara Faulkner shows that its most subversive function is the assertion that human life can be other than and more than it is Olsen s promise of full creative life aims to make her readers forever dissatisfied with physical emotional and intellectual starvation Faulkner finds in Olsen s writing a triple layered pattern combining protest against oppression blight celebration of courage and strength fruit and the heartening dream of a radically transformed future world possibility She focuses on four of Olsen s main themes motherhood the relationship between men and women community and language and shows how because of social and economic circumstances potentially creative tensions become destructive contradictions motherhood stifles women s lives patriarchy and poverty turn men into enemies of women and children communities force their members into betrayal and language distorts or erases human experience Olsen reveals according to Faulkner the overlapping oppressions of class race gender nationality education and age that both link people and set them apart Yet she refuses to exalt suffering and deprivation In this comprehensive

examination of a literature of social consciousness Faulkner approaches Olsen's works within their historical social and political contexts without treating them as propaganda In fact she shows that it is Olsen's compressed poetic style that gives her writing its revolutionary power She illuminates both the author's individual talent and the traditions in which her works were created traditions of women writers of color writers of the working class and writers who were immigrants or children of immigrants
