Cartomancy is one that can claim the distinction of having swayed the human mind from prehistoric times right down to this twentieth century of ours. It may be that this book will fall into the hands of those who agree with the words of L. Estrange: there needs no more than impudence on the one side and a superstitious credulity on the other to the setting up of a Fortune teller. This attitude of cynical superiority is sometimes genuine but in many cases if we could read what lies beneath the surface we should find that it is but a cloak worn to conceal a lurking fear, an almost irritated condition of mind born of a half confessed faith in the power at which it is so easy to scoff.
