KJ Lindholm-Leary

Sonoran Desert Spring:

Sonoran Desert Spring John Alcock, 1985 When the Rains Come John Alcock, 2015-11-01 Life in the desert is a waiting game waiting for rain And in a year of drought the stakes are especially high John Alcock knows the Sonoran Desert better than just about anyone else and in this book he tracks the changes he observes in plant and animal life over the course of a drought year Combining scientific knowledge with years of exploring the desert he describes the variety of ways in which the wait for rain takes place and what happens when it finally comes The desert is a land of five seasons featuring two summers hot dry months followed by monsoon and Alcock looks at the changes that take place in an entire desert community over the course of all five He describes what he finds on hikes in the Userly Mountains near Phoenix where he has studied desert life over three decades and where frequent visits have enabled him to notice effects of seasonal variation that might escape a casual glance Blending a personal perspective with field observation Alcock shows how desert ecology depends entirely on rainfall He touches on a wide range of topics concerning the desert s natural history noting the response of saguaro flowers to heat and the habits of predators whether soaring red tailed hawk or tiny horned lizard He also describes unusual aspects of insects that few desert hikers will have noticed such as the disruptive color pattern of certain grasshoppers that is more effective than most camouflage When the Rains Come is brimming with new insights into the desert from the mating behaviors of insects to urban sprawl and features photographs that document changes in the landscape as drought years come and go It brings us the desert in the harshest of times and shows that it is still teeming with life

Aridland Springs in North America Lawrence E. Stevens, Vicky J. Meretsky, 2008 A collection of articles on the ecology of North American desert springs by authors from the fields of biology botany ichthyology conservation geology and law and covering both the special traits of springs and the ways in which they might be managed in order to survive

Desert Sense Bruce Grubbs, 2005-01-10 Techniques for traversing desert terrain by vehicle by mountain bike or on foot Strategies for comfort safety and survival in extreme conditions Selecting gear and equipment for this special environment Like any desert aficionado Bruce Grubbs is obsessed with water how much to bring how to carry it how to conserve it and how to find it in the backcountry But desert exploration involves much more Grubbs provides the knowledge and skills you need to move through this landscape with confidence In addition to techniques for hiking and mountain biking special to desert conditions Grubbs tells how to prepare your vehicle for remote desert roads and how to avoid getting stuck in sand or busting a tire He discusses navigating in the desert dry camping skills and techniques for minimum impact on this starkly beautiful but fragile environment There are tips for dealing with desert heat and cold and other challenges sharp spiny plants and venomous snakes are easy to avoid with a little preparation and know how But just in case Grubbs

troubleshoots the worst case scenarios Throughout he gives an understanding of desert climate and seasons and the unique plants and creatures at home in it *Murray Springs* C. Vance Haynes, Bruce B. Huckell, 2022-04-05 The Murray Springs Site in the upper San Pedro River Valley of southeast Arizona is one of the most significant Clovis sites ever found It contained a multiple bison kill a mammoth kill and possibly a horse kill in a deeply stratified sedimentary context Scattered across the buried occupation surface with the bones of late Pleistocene animals were several thousand stone tools and waste flakes from their manufacture and repair Because of the unique occurrence of an algal black mat that buried the Clovis age surface immediately after abandonment the distributional integrity of the artifacts and debitage clusters is exceptional for Paleoindian sites Excavation of the Clovis hunters camp 50 to 150 meters south of the kills revealed artifactual evidence typical of hunting camp activity including hide working and weapons repair Impact flakes conjoining with Clovis points clearly tied the camp to the bison kill The unique nature of the site and this comprehensive study of the excavated material constitute one of the most important contributions to our knowledge of Paleoindian hunters in the New World **Revised and Updated Edition** Steven J. Phillips, Patricia Wentworth Combs, 2000 A Natural History of the Sonoran Desert provides the most complete collection of Sonoran Desert natural history information ever compiled and is a perfect introduction to this biologically rich desert of North America **BOOK JACKET** **Encyclopedia of the World's Biomes**, 2020-06-26 Encyclopedia of the World's Biomes is a unique five volume reference that provides a global synthesis of biomes including the latest science All of the book's chapters follow a common thematic order that spans biodiversity importance principal anthropogenic stressors and trends changing climatic conditions and conservation strategies for maintaining biomes in an increasingly human dominated world This work is a one stop shop that gives users access to up to date informative articles that go deeper in content than any currently available publication Offers students and researchers a one stop shop for information currently only available in scattered or non technical sources Authored and edited by top scientists in the field Concisely written to guide the reader though the topic Includes meaningful illustrations and suggests further reading for those needing more specific information Encyclopedia of Deserts Michael A. Mares, 2017-01-19 Encyclopedia of Deserts represents a milestone it is the first comprehensive reference to the first comprehensive reference to deserts and semideserts of the world Approximately seven hundred entries treat subjects ranging from desert survival to the way deserts are formed Topics include biology birds mammals reptiles amphibians fishes invertebrates plants bacteria physiology evolution geography climatology geology hydrology anthropology and history The thirty seven contributors including volume editor Michael A Mares have had extensive careers in deserts research encompassing all of the world's arid and semiarid regions The Encyclopedia opens with a subject list by topic an organizational guide that helps the reader grasp interrelationships and complexities in desert systems Each entry concludes with cross references to other entries in the volume inviting the reader to embark on a personal expedition into fascinating previously unknown terrain In addition a list

of important readings facilitates in depth study of each topic An exhaustive index permits quick access to places topics and taxonomic listings of all plants and animals discussed More than one hundred photographs drawings and maps enhance our appreciation of the remarkable life landforms history and challenges of the world s arid land **Design with the Desert**
Richard Malloy, John Brock, Anthony Floyd, Margaret Livingston, Robert H. Webb, 2016-04-19 Typical development in the American Southwest often resulted in scraping the desert lands of the ancient living landscape to be replaced with one that is human made and dependent on a large consumption of energy and natural resources This transdisciplinary book explores the natural and built environment of this desert region and introduces development tools for shaping its future in a more sustainable way It offers valuable insights to help promote ecological balance between nature and the built environment in the American Southwest and in other ecologically fragile regions around the world
