Sons And Seals:

Seals and Society Phillipp R. Schofield, John McEwan, Elizabeth New, Sue Johns, 2016-06-15 considers seals from medieval Wales and neighbouring England the Borders the market goes beyond Wales ground breaking treatment of seals as historical documents Has a multidisciplinary scope covering Art history Cultural history Celtic Studies and medieval history uses sigillographic evidence to provide important new insights into the history of medieval Wales and the English border counties

Seals and their Context in the Middle Ages Phillipp R. Schofield, 2015-01-08 Seals and their Context in the Middle Ages offers an extensive overview of approaches to and the potential of sigillography as well as introducing a wider readership to the range interest and artistry of medieval seals Seals were used throughout medieval society in a wide range of contexts royal governmental ecclesiastical legal in trade and commerce and on an individual and personal level The fourteen papers presented here which originate from a conference held in Aberystwyth in April 2012 focus primarily on British material but there is also useful reference to continental Europe The volume is divided into three sections looking at the history and use of seals as symbols and representations of power and prestige in a variety of institutional dynastic and individual contexts their role in law and legal practice and aspects of their manufacture sources and artistic attributes Importantly and distinctively the volume moves beyond the study of high status seals to consider such themes as the social and economic status of seal makers the nature and meaning including reflections of deliberate wit and boastfulness of specific motifs employed at various levels of society and the distribution of seals in relation to the location of for instance religious institutions and along major routeways In so doing it sets out ways in which sigillography can open new pathways into the study of non elites and their cultures in medieval society

Phoenicia J. Brian Peckham, 2014-10-30 *Phoenicia* has long been known as the homeland of the Mediterranean seafarers who gave the Greeks their alphabet But along with this fairly well known reality many mysteries remain in part because the record of the coastal cities and regions that the people of *Phoenicia* inhabited is fragmentary and episodic In this magnum opus the late Brian Peckham examines all of the evidence currently available to paint as complete a portrait as is possible of the land its history its people and its culture In fact it was not the Phoenicians but the Canaanites who invented the alphabet what distinguished the Phoenicians in their turn was the transmission of the alphabet which was a revolutionary invention to everyone they met The Phoenicians were traders and merchants the Tyrians especially thriving in the back and forth of barter in copper for Levantine produce They were artists especially the Sidonians known for gold and silver masterpieces engraved with scenes from the stories they told and which they exchanged for iron and eventually steel and they were builders like the Byblians who taught the alphabet and numbers as elements of their trade When the Greeks went west the Phoenicians went with them Italy was the first destination settlements in Spain eventually followed but Carthage in North Africa was a uniquely Phoenician foundation The Atlantic Spanish settlements retained their Phoenician character but the Mediterranean settlements in Spain Sicily Sardinia and

Malta were quickly converted into resource centers for the North African colony of Carthage a colony that came to eclipse the influence of the Levantine coastal city states An emerging independent Western Phoenicia left Tyre free to consolidate its hegemony in the East It became the sole west Asiatic agent of the Assyrian Empire But then the Babylonians let it all slip away and the Persians intent on war and world domination wasted their own and everyone's time trying to dominate the irascible and indomitable Greeks The Punic West Carthage made the same mistake until it was handed off to the Romans But Phoenicia had been born in a Greek matrix and in time had the sense and good grace to slip quietly into the dominant and sustaining Occidental culture This complicated history shows up in episodes and anecdotes along a frangible and fractured timeline Individual men and women come forward in their artifacts amulets or seals There are king lists and alliances companies and city assemblies Years or centuries are skipped in the twinkling of any eye and only occasionally recovered Phoenicia like all history is a construct a product of historiography an answer to questions The history of Phoenicia is the history of its cities in relationship to each other and to the peoples cities and kingdoms who nourished their curiosity and their ambition It is written by deduction and extrapolation by shaping hard data into malleable evidence by working from the peripheries of their worlds to the centers where they lived by trying to uncover their mentalities plans beliefs suppositions and dreams in the residue of their products and accomplishments For this reason the subtitle *Episodes and Anecdotes from the Ancient Mediterranean* is a particularly appropriate description of Peckham's masterful posthumous volume the fruit of a lifetime of research into the history and culture of the Phoenicians

The Seal of the Sanga Michel Tanret, 2010 This study assembles and examines all available documentation on the first and second sangas of ama of the Ebabbar temple in Old Babylonian Sippar as well as on those in the Edikuda temple in neighbouring Sippar Amn num Their succession family links and the length of their careers are discussed and newly completed drawings of their seals are provided described and analyzed The author addresses the evolving patterns of sealing and the changes in the seal legends which yield information on the growing influence of the Marduk circles and thus of the kings of Babylon The seal stones have been reconstructed from the impressions and conclusions are drawn concerning the choice of seal scenes by the different sangas as well as the use of family seals
