Soul Murder Persecution In The Family:

Soul Murder: Persecution in the Family Morton Schatzman, 1973 Daniel Paul Schreber 1842 1911 an eminent German judge went mad at the age of forty two recovered and eight and a half years later went mad again It is uncertain if he was ever fully sane in the ordinary social sense again His father Daniel Gottlieb Moritz Schreber 1808 1861 who supervised his son s upbringing was a leading German physician and pedagogue whose writings on child rearing techniques influenced these practices during his life and after his death The father thought his age to be morally soft and decayed owing mainly to laxity in educating and disciplining children at home and at school He proposed to battle the weakness of his era with an elaborate system aimed at making children obedient and subject to adults He expected that his precepts if followed would lead to a better society and race The father applied these same basic principles in raising his own children including Daniel Paul and another son Daniel Gustav the elder who also went mad and committed suicide in his thirties Psychiatrists and psychoanalysts consider the case of the former Daniel Paul a classic model of paranoia and schizophrenia but Freud and Bleuler in their analyses of the son s illness failed to link the strange experiences of Daniel Paul for which he was thought mad to his father s child rearing practices Goodreads [A Most Dangerous Method](#) John Kerr, 2011-02-23 Has all the elements of a juicy novel riveting Reudite and elegant Newsday NOW A MAJOR MOTION PICTURE Direcetd by Dabid Cronenbertg and STARRING KEIRA KNIGHTLY VIGGO MORENSEN MICHAEL FASSBENDER and VINCENT CASSEL In 1907 Sigmund Freud and Carl Jung began what promised to be both a momentous collaboration and the deepest friendship of each man s life Six years later they were bitter antagonists locked in a savage struggle that was as much personal and emotional as it was theoretical and professional Between them stood a young woman named Sabina Spielrein who had been both patient and lover to Jung and colleague and confidante to Freud before going on to become an innovative psychoanalyst herself With the narrative power and emotional impact of great tragedy A Dangerous Method is impossible to put down

[Family Psychopathology](#) Luciano L'Abate, 1998-08-17 Providing an authoritative review of the influence of the family on individual behavior this book shows how many individual psychopathologies stem from external rather than internal conditions Chapters describe a variety of dysfunctional patterns and explore how they lead to different kinds of disorders Preventive measures and treatment approaches are critically examined **Subjectivity in Motion** Naamah Akavia, 2013 Naamah Akavia delves deep into the history and life story of Hermann Rorschach the Swiss psychiatrist known today for his inkblot test and examines how the motif of movement figured into his psychological theory and psychiatric practice **The Sublime Object of Psychiatry** Angela Woods, 2011-08-25 Schizophrenia has been one of psychiatry s most contested diagnostic categories It has also served as a metaphor for cultural theorists to interpret modern and postmodern understandings of the self These radical compelling and puzzling appropriations of clinical accounts of schizophrenia have been dismissed by many as illegitimate insensitive and inappropriate Until now no attempt has been made to analyse them

systematically nor has their significance for our broader understanding of this most ununderstandable of experiences been addressed. *The Sublime Object of Psychiatry* is the first book to study representations of schizophrenia across a wide range of disciplines and discourses: biological and phenomenological psychiatry, psychoanalysis, critical psychology, antipsychiatry, and postmodern philosophy. In part one, Woods offers a fresh analysis of the foundational clinical accounts of schizophrenia, concentrating on the work of Emil Kraepelin, Eugen Bleuler, Karl Jaspers, Sigmund Freud, and Jacques Lacan. In the second part of the book, she examines how these accounts were critiqued, adapted, and mobilised in the cultural theory of R. D. Laing, Thomas Szasz, Gilles Deleuze, Félix Guattari, Louis Sass, Fredric Jameson, and Jean Baudrillard. Using the aesthetic concept of the sublime as an organising framework, Woods explains how a clinical diagnostic category came to be transformed into a potent metaphor in cultural theory and how in that transformation schizophrenia came to be associated with the everyday experience of modern and postmodern life. Susan Sontag once wrote, 'Any important disease whose causality is murky and for which treatment is ineffectual tends to be awash in significance.' *The Sublime Object of Psychiatry* does not provide an answer to the question 'What is schizophrenia?' but instead brings clinical and cultural theory into dialogue in order to explain how schizophrenia became awash in significance.

Sartre and Magic Daniel O'Shiel, 2019-06-27. Jean-Paul Sartre's technical and multifaceted concept of magic is central for understanding crucial elements of his early philosophy. 1936-1943, not least his conception of the ego, emotion, the imaginary, and value. Daniel O'Shiel follows the thread of magic throughout Sartre's early philosophical work. Firstly, Sartre's work on the ego (1936) shows a personal, reflective form of consciousness that is magically hypostasized onto the pre-reflective level. Secondly, emotion (1938) is inherently magical for Sartre because emotive qualities come to inhere in objects and thereby transform a world of pragmatism into one of captivation. Thirdly, analyses of *The Imaginary* (1940) reveal that anything we imagine is a spontaneous creation of consciousness that has the power to enchant and immerse us, even to the point of images holding sway over us. Culminating with Sartre's ontological system of Being and Nothingness (1943), O'Shiel argues that Sartre does not do away with the concept but in fact provides ontological roots for it. This is most evident in Sartre's analyses of value, possession, and language. A second part shows how such Sartrean magic is highly relevant for a number of concrete case studies: the arts, advertising, racism, and stupidity, and certain instances of psychopathology. O'Shiel shows that Sartre's magical being is important for any contemporary philosophical anthropology because it is essentially at work at the heart of many of our most significant experiences, both creative and damaging.
