The Sacred Path Beyond Trauma Ellen Macfarland, Ph.D., 2008-06-03 One of Graham Greene s characters famously said I suffer therefore I am suggesting that pain is an inescapable and perhaps incurable part of the human condition But must this be so Ellen Macfarland argues otherwise in *The Sacred Beyond Trauma* Through the use of mythology stories from film and fiction real life examples and her personal history Macfarland shows that healing trauma is indeed possible using rich resources near at hand in nature The book explores major symbols of healing nature that can provide an impetus for personal transformation One of the case studies profiles Monty Roberts a well known horse trainer who overcame significant childhood abuse by working with horses and eventually fostering some forty children alongside his own biological family The key says Macfarland is using these and other natural

A Peircean Reimagining of Thomas Moore's Spirituality Nathan Garcia, 2025-09-04 Thomas Moore's psycho spirituality offers many practical insights for people to cultivate their soulfulness Underlying his program is the internal dichotomy between imaginal soul and intellectualizing spirit Moore prioritizes soul and privileges its mystical worldview which can lead to exaggerating introspectiveness and difficulty bridging a world of imagination with a world of fact This book devises a pragmatic model of spirituality to serve as an alternative to Moore's Platonically inspired soul program This model draws from Moore's vibrant character of soul and redirects it toward a critical social dialogue scientific inquiry and elevated political participation Drawing from the Pragmatism of Charles Sanders Peirce this book uses his famous Three Categories and Modes of Inference to reinterpret Moore's concepts of soul and spirit Peirce's metaphysical categories situate soul in distinct relationship with the world while the epistemological modes guide spirit to educate soul through experience The concluding tripartite model is called a soulful anthropology a nascent foundation for a 21st century American theological anthropology dedicated to the needs and charisms of today's culture

Renewing Theology J. Matthew Ashley, 2022-07-15 This comprehensive study investigates the role that Ignatian spirituality has played in the renewal of academic theology using three prominent Jesuits as case studies Over several centuries spirituality has come to define a field of concerns and themes increasingly treated separately from those of academic theology as if the latter had little relation to the former This raises the question for us today How is spirituality related to the practice of theology In *Renewing Theology* J. Matthew Ashley provides an answer by turning to Ignatian spirituality and three prominent twentieth century theologians who embraced its spiritual resources Karl Rahner Ignacio Ellacur a and Jorge Mario Bergoglio that is Pope Francis Ashley begins his investigation by considering the historical origins of the widening separation between spirituality and academic theology in the Christian West He provides an initial overview of Ignatian spirituality focusing on the openness and multidimensionality of Ignatius of Loyola's Spiritual Exercises presented here as a text in which the conditions of modernity that defined its author's world are present at least incipiently Ashley then offers three case studies in order to show how each Jesuit Rahner Ellacur a and Pope Francis responded to the challenges of modernity in a way that is uniquely nourished and illuminated by themes constitutive of Ignatian spirituality Their theologies Ashley suggests evince a particular clarity and force when the Ignatian spirituality that animates them is foregrounded Providing new and productive avenues into understanding the theologies of these three individuals this sophisticated and enlightening book will interest scholars and students of systematic theology as well as readers who are interested in the future of theology and spirituality in a fragmented age

Sinclair is a Reader in Social Policy and Social Work and Head of Social Work Programmes at the University of Chichester. Kish is known for her work on social work, race and racism, including researching border controls and IT in the EU, globalization in relation to social work, values, troubled families and black and minority ethnic children in care and inter-professional working in a culturally appropriate way. Chris Smethurst is Head of the Department of Childhood Social Work and Social Care at the University of Chichester. Chris previously worked in a range of social work and social care settings in community work, youth work, residential child care, day services and in learning disability and community mental health teams. This experience informed a keen interest in the impact of social attitudes on social policy and on the day to day work of practitioners and organizations. How has the increasing diversity of service user groups transformed the practice of social work? Social workers are increasingly working in complex and diverse situations with a wide variety of groups including those disadvantaged by social class, race, ethnicity, disability, religion, culture, gender and sexual orientation. This book is therefore for social work professionals, students, academics and practice educators. The editors and authors draw on specialist knowledge, tools and methods regarding working with diversity to support the development of practice skills and behaviours along with positive attitudes. Readers are encouraged to analyse and reflect on dilemmas in social work arising from marginalisation and discrimination, while case studies and summaries highlight assumptions, stereotypes and labels faced by diverse service user groups such as Roma people, black and ethnic minority groups and deafblind people. Topics covered include Diversity and difference, Inequality and social work, Cultural competence in social work practice, Being white and feeling guilty, Professional social work identities, Religion and spirituality. This book forms part of the Social Work Skills in Practice series. The series focuses on key social work skills required for working with children and adult service users, families and carers. The books offer both theoretical and evidence informed knowledge alongside the application of skills relevant for day to day social work practice. They are an invaluable resource for pre-qualifying students, newly qualified social workers, academics, teaching and researching in the field as well as social work practitioners including practice educators pursuing continuous professional development.

Meaning in Suffering Nancy Johnston, Alwilda Scholler-Jaquis, 2007-06-15. Compelling, timely and essential reading for healthcare providers. *Meaning in Suffering* addresses the multiplicity of meanings suffering brings to all it touches: patients, families, health workers and human science professionals. Examining suffering in writing that is both methodologically rigorous and accessible, the contributors preserve first-hand experiences using narrative ethnography, existential hermeneutics, hermeneutic phenomenology and traditional ethnography. They offer nuanced insights into suffering as a human condition experienced by persons deserving of dignity, empathy and understanding. Collectively, these essays demonstrate that understanding the suffering of the other reveals something vital about the moral courage required to heal and stay humane in the face of suffering. Winner, Nursing Research Category, American Journal of Nursing.
