Healing for Body, Soul and Spirit Michael Evans, Iain

Rodger, 2018-08-20 Conventional medicine focuses on the body's physical symptoms. But more and more patients are questioning the limitations of this approach and are exploring holistic approaches such as anthroposophic medicine which also addresses the human soul, our individual thinking, will and feelings and the human spirit, our self-awareness and essence. Anthroposophic medicine is an extension of, not a replacement to, conventional medicine. This comprehensive book introduces and explores the philosophy and practice of anthroposophic medicine which is based on principles developed by Rudolf Steiner. It discusses many alternative therapies and areas of health including artistic therapies, massage, childhood illnesses, cancer and psychiatry. **Healing for Body, Soul and Spirit** will inform and engage a general reader with no medical background who is interested in alternative and holistic approaches to human health.

Healing Happens with Your Help Carol Ritberger Ph. D., 2009-11 **HEALING HAPPENS WITH YOUR HELP** Is illness really just the result of external factors such as viruses, bacteria or environmental contaminants invading the body? Or is there something more going on? Could it be that the ancient metaphysicians were on to something with the adage 'As a person thinketh so shall he be'? Do the mind and body truly imitate and imprint each other so that what affects one has an impact on the other? Is it possible that illness is the soul's way of letting us know that something we're thinking, doing or saying is compromising who we truly are? This fascinating book provides the answers to these questions and more and it uncovers the hidden meanings behind illnesses such as diabetes, cancer, heart disease, rheumatoid arthritis, fibromyalgia, chronic fatigue syndrome, depression and headaches. It doesn't only look at symptoms but at origins, working not from the perspective of curing but of healing. It explores the complex relationship of emotions, attitudes and beliefs and provides a mapping process to show you where you energetically hold these triggers in the organs, glands, muscles and spine. Most important, this book offers insight into how you can heal yourself by simply changing your thoughts, attitudes and patterns.

Or is there something more to why we become ill? Could it be that the ancient metaphysicians were on to something when they viewed healing from the adage 'As a person thinketh so shall they be'? Do the mind and body truly imitate and imprint each other so what affects one affects the other? And if so, is it possible that if we acknowledge and understand the impact of these elements we could not only restore our body back to good health but we could actually make it better than before we became ill? **Healing Happens with Your Help** provides the answers to these questions and more and uncovers the hidden meanings behind illnesses such as diabetes, cancer, heart disease, rheumatoid arthritis, fibromyalgia, chronic fatigue, depression and headaches.
