Sound Clash Jamaican Dancehall Culture From Lady Saw To Dancehall Queen:

Sound Clash C. Cooper, 2004-09-14 Megawattage sound systems have blasted the electronically enhanced riddims and tongue twisting lyrics of Jamaica's dancehall DJs across the globe. This high energy raggamuffin music is often dismissed by old school roots reggae fans as a raucous degeneration of classic Jamaican popular music. In this provocative study of dancehall culture, Cooper offers a sympathetic account of the philosophy of a wide range of dancehall DJs: Shabba Ranks, Lady Saw, Ninjaman, Capleton, Buju Banton, Anthony B, and Apache Indian. Cooper also demonstrates the ways in which the language of dancehall culture often devalued as mere noise articulates a complex understanding of the border clashes which characterize Jamaican society and analyzes the sound clashes that erupt in the movement of Jamaican dancehall culture across national borders.

The Psychology of Skin Bleaching Christopher A.D. Charles, 2025-04-29 This book examines the controversial global phenomenon of skin bleaching. It uses a social psychological approach to explain the motivations, behavior, and medical consequences of the practice, considering why some people use products to lighten their complexion. Written by a world leading expert in skin bleaching, the book takes a nuanced approach to understanding skin bleaching that looks further than the standard claims of low self-esteem, a form of self-hatred. It goes beyond looking at individual personality traits to consider the cultural norms, values, shared social meanings, and practices about race and skin color, showing how shared meanings from social representation guide people's behavior in their culture. The book draws predominantly on research from Jamaica but considers how skin bleaching is practised in different cultural contexts across the Americas, Europe, Asia, and Africa. Chapters consider the history of race and skin color, how skin color and race are portrayed in popular culture, how skin color and race form two of some people's social identities, and how skin bleaching has become an established social practice in many settings. It also looks at the consequences of skin bleaching and suggests policy responses that could help curb the practice. *The Psychology of Skin Bleaching* will be highly relevant reading for students and scholars in the fields of psychology, Black and Caribbean studies, sociology, anthropology, cultural studies, and health. It will also be of interest to professionals including psychiatrists and public health practitioners, and anyone interested in better understanding the psychological and bodily expressions of racialized discrimination and oppression.
