Architecture as the Ethics of Climate Jin Baek, 2016-06-10 At a time when climate and ethics have become so important to architectural debate this book proposes an entirely new way for architects to engage with these core issues Drawing on Tetsuro Watsuji's 1889-1960 philosophy the book illuminates climate not as a collection of objective natural phenomena but as a concrete form of bond in which who we are the subjective human experience is indivisibly intertwined with the natural phenomena The book further elucidates the inter personal nature of climatic experiences criticizing a view that sees atmospheric effects of climate under the guise of personal experientialism and reinforcing the linkage between climate and ethos as the appropriateness of a setting for human affairs This ethical premise of climate stretches the horizon of sustainability as pertaining not only to man's solitary relationship with natural phenomena a predominant trend in contemporary discourse of sustainability but also to man's relationship with man Overcoming climatic determinism regional determinism too and expanding the ethics of the inter personal to the level where the whole and particulars are joined through the dialectics of the mutually negating opposites Jin Baek develops a new thesis engaging with the very urgent issues inherent in sustainable architecture Crucially the book explores examples that join climate and the dynamics of the inter personal including Japanese vernacular residential architecture the white residential architecture of Richard Neutra contemporary architectural works and urban artifacts by Tadao Ando and Aldo Rossi Beautifully illustrated this book is an important contribution to the discourse which surrounds architecture climate and ethics and encourages the reader to think more broadly about how to respond to the current challenges facing the profession

Finding Kluskap Jennifer Reid, 2013-07-16 The Mi kmaq of eastern Canada were among the first indigenous North Americans to encounter colonial Europeans As early as the mid sixteenth century they were trading with French fishers and by the mid seventeenth century large numbers of Mi kmaq had converted to Catholicism Mi kmaw Catholicism is perhaps best exemplified by the community s regard for the figure of Saint Anne the grandmother of Jesus Every year for a week coinciding with the saint s feast day of July 26 Mi kmaw peoples from communities throughout Quebec and eastern Canada gather on the small island of Potlotek off the coast of Nova Scotia It is however far from a conventional Catholic celebration In fact it expresses a complex relationship between the Mi kmaq Saint Anne a series of eighteenth century treaties and a cultural hero named Kluskap Finding Kluskap brings together years of historical research and learning among Mi kmaw peoples on Cape Breton Island Nova Scotia The author s long term relationship with Mi kmaw friends and colleagues provides a unique vantage point for scholarship one shaped not only by personal relationships but also by the cultural intellectual and historical situations that inform postcolonial peoples The

picture that emerges when Saint Anne Kluskap and the mission are considered in concert with one another is one of the sacred life as a site of adjudication for both the meaning and efficacy of religion and the impact of modern history on contemporary indigenous religion

Nishida Kitaro's Chiasmatic Chorology John W. M. Krummel, 2015-09-01

Nishida Kitaro 1870-1945 is considered Japan's first and greatest modern philosopher. As founder of the Kyoto School, he began a rigorous philosophical engagement and dialogue with Western philosophical traditions, especially the work of G. W. F. Hegel. John W. M. Krummel explores the Buddhist roots of Nishida's thought and places him in connection with Hegel and other philosophers of the Continental tradition. Krummel develops notions of self-awareness, will, being, place, the environment, religion, and politics in Nishida's thought and shows how his ethics of humility may best serve us in our complex world.
