

Structure In Early Learning

Sharon Lynn Kagan, Rebecca E. Gomez

Structure In Early Learning:

Structure in Early Learning Alice Yardley, 1974 **Early Childhood Governance** Sharon Lynn Kagan, Rebecca E. Gomez, 2015-03-06 Nothing provided **Mathematics Learning in Early Childhood** National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on Early Childhood Mathematics, 2009-12-13 Early childhood mathematics is vitally important for young children's present and future educational success. Research demonstrates that virtually all young children have the capability to learn and become competent in mathematics. Furthermore, young children enjoy their early informal experiences with mathematics. Unfortunately, many children's potential in mathematics is not fully realized, especially those children who are economically disadvantaged. This is due in part to a lack of opportunities to learn mathematics in early childhood settings or through everyday experiences in the home and in their communities. Improvements in early childhood mathematics education can provide young children with the foundation for school success. Relying on a comprehensive review of the research, *Mathematics Learning in Early Childhood* lays out the critical areas that should be the focus of young children's early mathematics education, explores the extent to which they are currently being incorporated in early childhood settings, and identifies the changes needed to improve the quality of mathematics experiences for young children. This book serves as a call to action to improve the state of early childhood mathematics. It will be especially useful for policy makers and practitioners, those who work directly with children and their families, in shaping the policies that affect the education of young children.

Twelve Best Practices for Early Childhood Education Ann Lewin-Benham, 2015-04-24 Popular author Ann Lewin Benham draws on her experience with the Reggio Approach to present 12 best practices inspired not only by Reggio but also by play-based and Montessori approaches to early childhood education. These practices are demonstrated one per chapter with scenarios from classrooms, dialogues of children and teachers, and work samples showing the outcome of using each practice. This resource includes a self-assessment tool to assist you in examining your practices and those of your school.

Learning Across the Early Childhood Curriculum Lynn Cohen, Sandra Waite-Stupiansky, 2013-07-12 Education according to John Dewey should be viewed as dynamic and ongoing with direct teaching of integrated content knowledge. This volume offers readers an examination of the content areas in early childhood curriculum that honor Dewey's belief in active integrated learning.

Early Childhood Systems Sharon Lynn Kagan, Kristie Kauerz, 2012-03-16 In this seminal volume, leading authorities strategize about how to create early childhood systems that transcend politics and economics to serve the needs of all young children. The authors offer different interpretations of the nature of early childhood systems, discuss the elements necessary to support their development, and examine how effectiveness can be assessed. With a combination of cutting-edge scholarship and practical examples of systems-building efforts taking place in the field, this book provides the foundation educators and policymakers need to take important steps toward developing more conceptually

integrated approaches to early childhood care education and comprehensive services **Sankofa: Appreciating the Past in Planning the Future of Early Childhood Education, Care and Development in Africa** UNESCO,2023-04-01

Partnership with Parents in Early Childhood Settings Liz Hryniewicz,Paulette Luff,2020-10-29 Partnership with Parents in Early Childhood Settings examines how practitioners can work effectively with parents and families acknowledging the complex nature of these relationships Drawing on policy research and practice from kindergartens and early years settings in five European countries it provides insight into how political social and cultural contexts affect the relationships between educators and families and the impact this has on children s early experiences The book is based upon learning from an Erasmus mobility project between educators from five countries in OMEP the World Organisation for Early Childhood Education It presents examples from practice and research from the different countries and highlights some positive and practical ways in which professionals can work with parents as well as potential barriers to parental partnership and how these might be overcome Each section focuses on a different country and allows for a detailed exploration into how relationships are developed and sustained for the benefit of young children and their families in different places Throughout the reader is encouraged to reflect on their current understanding of parental partnership and how they can plan for positive parental partnership working in the future This thought provoking text will be an indispensable resource for students of early childhood and teachers and practitioners as well as academics and those with an interest in early years social and educational policy **Early Childhood Education** Angela Anning,Joy Cullen,Marilyn Flear,2008-11-19 The authors who have contributed to this book bring a wealth of expertise and a wide range of research findings This gives the reader the opportunity to link theory with practice in a helpful and illuminating way Early Years Update Praise for the first edition represents an enormously rich body of research and expertise focused on the objective of taking into account the social historical and cultural dimensions of everyday activities in order to better understand children will undoubtedly be of interest and value to anyone with a similar concern Early Years Journal an international state of the art early childhood education publication that sets out research based evidence and critically links this with theory and practice It is pitched at the graduate level and beyond Readers will gain more from the book if they have a thorough base understanding of relevant learning and social cultural theories and an open mind to appreciate the perspectives presented in this book Childforum New Zealand This fully revised and up to date edition examines sociocultural and historical approaches to current theories of learning in early childhood education It sets out research based evidence linking theory and practice in early childhood settings Written by leading figures in the field the book extends a strong and traditional theme the importance of the child s perspective and respect for each child s individual background Within the context of early years settings the book is structured around four overall themes the dynamics of learning and teaching the nature of knowledge assessment evaluation and quality This book is essential reading for undergraduate and advanced courses in early childhood studies
