The Structure of Canadian History John L. Finlay, Douglas Neil Sprague, 1997 *Britain and the Origins of Canadian Confederation, 1837-67* Ged Martin, 2011-11-01 In explaining why the British North American provinces united in 1867 historians have tended to see Confederation as a logical response to the internal and external challenges of the 1860s With some ambiguity they have also attributed a major role to the British imperial factor in forcing the Maritime provinces to accept their predestined place in the Canadian nation In *Britain and the Origins of Canadian Confederation 1837 1867* Ged Martin offers a sceptical review of claims that Confederation answered all the problems facing the provinces and examines in detail British perceptions of Canada and ideas about its future The major British contribution to the coming of Confederation is to be found not in the aftermath of the Quebec conference where the imperial role was mainly one of bluff and exhortation but prior to 1864 in a vague consensus among opinion formers that the provinces would one day unite Faced with an inescapable need to secure legislation at Westminster for a new political structure British North American politicians found they could work within the context of a metropolitan preference for intercolonial union **Pre-Confederation Canada** John L. Finlay, 1990 Written by two well known historians this text presents a detailed chronological account of Canadian history from the country's earliest beginnings as a wilderness frontier to its emergence as an independent nation The story unfolds from a power and politics perspective and picks up the themes of social and economic history It incorporates recent research and historical debates and reflects current interpretations of native peoples *Post-confederation Canada* Douglas N. Sprague, 1990 Canadian Social Structure John Porter, 1967-01-01 As well as statistical tables the author has provided a fascinating introduction to the problem of working with statistics and a detailed commentary on the selection of the tables
