Structure Of Religious Knowing:

The Structure of Religious Knowing John D. Dadosky, 2004 *The Structure of Religious Knowing, a Dialectical Reading of Eliade's Notion of the Sacred Through Lonergan's Theory of Consciousness*, 2001 Gnosticism and the History of Religions David G. Robertson, 2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation

Between Psychology and Psychotherapy (Psychology Revivals) Miller Mair, 2013-10-31 In this highly original and thought provoking work the late Miller Mair puts forward his ideas for a new psychology First published in 1989 he deals with issues of fundamental importance to the future of a psychology guided by genuine enquiry and concern rather than mere professional self interest Crossing and re crossing boundaries between psychology psychotherapy and philosophy and between science and art he demonstrates the linkages between the personal and the impersonal subject and object inside and outside with a daring not previously risked by anyone working in the area Dr Mair stresses the importance of a poetic approach in psychology and psychotherapy and the need to explore and understand the nature of psychology through an imaginative freedom of language He emphasizes that a poetic awareness and attentiveness is fundamental to any pursuit of understanding of ourselves or others This is a very personal book concerned with personal knowledge but it is meant for anyone who seeks to understand themselves and others and what is involved in coming to such understanding Focusing on ordinary human experience and moving towards literary and artistic modes of expression the author invites you to enter in follow what you think and feel as he proposes a radical revision of much that is accepted in psychology and in psychotherapy

Experiencing the Knowing of Faith Sharon Warner, 2000 What is religious faith And how does modern society view truth Sharon Warner in *Experiencing the Knowing of Faith* discusses the understanding formed by deep truth or knowledge intrinsic to a person's self identity She critiques today's susceptibility to the paradigm of Cartesian dualities such as mind body and subject object and in doing so utilizes the philosophy of Alfred North Whitehead and Michael Polanyi Concluding

with an exploration of the relevance of this theory for teaching faith the work will be of great use to religious scholars and to philosophers

The Eclipse and Recovery of Beauty John D. Dadosky, 2014-01-01 Inspired by Bernard Lonergan's philosophy of consciousness Dadosky presents a philosophy of beauty that is grounded in contemporary Thomistic thought Responding to Balthasar he argues for a concept of beauty that can be experienced understood judged created contemplated and even loved

On Faith, Rationality, and the Other in the Late Middle Ages Gergely Tibor Bakos, 2011-01-01 On Faith Rationality and the Other in the Late Middle Ages is an investigation of Nicholas of Cusa that seeks a deeper understanding of this important medieval intellectual and his importance for us today One of Gergely Bakos's primary aims in this study is to understand Nicholas of Cusa's important and underexamined dimensions of his approach to dialogue with Islam The framework and the methodology that informs this investigation was inspired by the late Professor Jos Decorte 1954-2001 a Flemish philosopher and mediaevalist at the Catholic University of Leuven in Belgium Bakos carefully exposit his method of approaching medieval thought Part One and then applies and tests this method in practice Part Two The most extensive part of this study offers a sketch of the historical background of Nicholas's dialogue with Islam and investigates what possibilities this approach offers All of this is placed in dialogue with two other mediaeval approaches to Islam Thomas Aquinas and Ramon Lull The final chapters discuss Nicholas of Cusa's project from a perspective offered by his mystical theology The book culminates in an exploration of the possibilities of Nicholas of Cusa's approach by testing the framework of the study Finally the author evaluates the application of his own approach Part Three The study ultimately has two purposes to contribute to a better understanding of Nicholas of Cusa's thought on the one hand and on the other to test a particular methodology and interpretative framework for the understanding of mediaeval culture

The "Language game" of confessing one's belief Mary-John Mananzan, 2012-05-10 Over the past few decades the book series Linguistische Arbeiten Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory

Suicide Bombers: The Psychological, Religious and Other Imperatives Mary Sharpe, 2008-07-15 Suicide Bombers The Psychological Religious and Other Imperatives provides wisdom and insight in an inter group situation characterized by huge gulfs and misperceptions The Western media has focused on fundamentalists as the voice of Islam and helped to shape a warped stereotype of the vast majority of Muslims who are actually moderate in attitudes This volume provides a corrective by explaining how de radicalization programs are being spearheaded by Muslims themselves and also by exploring the best strategies for

understanding and dealing with Islamic fundamentalism and suicide terrorism The chapters reflect the international interdisciplinary nature of the workshops that served as the launching pad from the project This volume reflects a positive trend it is an indication that researchers can lead societies to accurately pinpoint the nature and role of fundamentalists and that they can differentiate between destructive elements on the one hand and the majority of moderates seeking to achieve constructive peaceful inter group relations on the other hand Although there is considerable diversity among the chapters a shared theme is the contextual approach to understanding extremism and suicide terrorism Rather than become seduced by reductionist explanations to do with assumed intra personal characteristics of suicide terrorists the authors focus on the characteristics of groups and contexts

Personal Catholicism Martin X. Moleski, Avery Dulles, 2020-10-01 Both Newman and Polanyi rank high among the pioneers in the history of the post critical movement in epistemology They pointed out the limitations of the methods that had become current since the time of Descartes and Spinoza The systems of these two authors are exceptionally useful for dealing with the major issues that trouble the theological climate today From the Foreword by Avery Dulles S J This engaging and lucid study brings into dialogue two thinkers whose methods share much in common despite their different purposes A principal contribution of Moleski s study is its cultivation of the common ground that religion shares with science Theological Studies An important and utterly engaging study Those familiar with Newman s Grammar of Assent and Polanyi s Personal Knowledge will appreciate the ways in which Moleski makes sometimes unexpected connections between the two thinkers despite Polanyi s critical disposition toward Catholicism Personal Catholicism is a most welcome contribution to today s rethinking of the relationship between faith and reason First Things There is a wealth of material here that could be applied to issues of faith and reason science and faith faith and the nature of reality as they are raised in contemporary society The Gospel and Our Culture
