Reflections on Kurt Gödel Hao Wang, 1990-03-14 Newton Descartes Einstein G del The seventeenth century had its scientific and philosophical geniuses Why shouldn't ours have them as well Kurt G del was indisputably one of the greatest thinkers of our time and in this first extended treatment of his life and work Hao Wang who was in close contact with G del in his last years brings out the full subtlety of G del's ideas and their connection with grand themes in the history of mathematics and philosophy The subjects he covers include the completeness of elementary logic the limits of formalization the problem of evidence the concept of set the philosophy of mathematics time and relativity theory metaphysics and religion as well as general ideas on philosophy as a worldview Wang whose reflections on his colleague also serve to clarify his own philosophical thoughts distinguishes his ideas from those of G del's and on points of agreement develops G del's views further The book provides a generous array of information on and interpretation of the two main phases of G del's career the years between 1924 and 1939 at the University of Vienna which were marked by intense mathematical creativity and the period from 1940 to his death in 1978 during which he was affiliated with the Institute for Advanced Studies in Princeton a time in which G del's interests steadily shifted from questions of logic to metaphysics And it also examines G del's relations with the Vienna Circle his philosophical differences with Carnap and Wittgenstein the intimate and mutually fruitful friendship with Einstein and the periodic bouts of depression for which G del was hospitalized a number of times over the course of his life A Bradford Book **Robert Louis Stevenson in the Pacific** Roslyn Jolly, 2009 Roslyn Jolly examines a

crucial period 1887-1894 in Stevenson's life focusing on the self-transformation wrought in his Pacific travel writing and political texts. As his geographical and cultural horizons expanded, Stevenson's professional sphere also enlarged. A key feature of the study is Jolly's analysis of the resistance of Victorian readers not only to the Pacific subject matter of Stevenson's later works but also to his experiments with new styles and genres. *Vandals to Visigoths* Karen Eva Carr, 2002. Sheds light on settlement patterns in early medieval Spain and demonstrates the local effect of the collapse of Roman Government.
