Structurists Number 29 3:

The Structurist ,1999 *Ricoeur and the Post-Structuralists* Johann Michel,2014-10-31 In this important and original book Johann Michel paves the way for a greater understanding of Paul Ricoeur s philosophy by exploring it in relation to some major figures of contemporary French thought Bourdieu Derrida Deleuze Foucault and Castoriadis Although the fertile dialogue between Ricoeur and various structuralist thinkers is well documented his position in relation to the post structuralist movement is less widely understood Does Ricoeur s philosophy stand in opposition to post structuralism in France or on the contrary is it in fact a unique variation of that movement This book defends the latter statement Michel speaks of post structuralisms in the plural form and engages them in a dynamic confrontation between Ricoeur and his contemporaries in the French intellectual scene The result is a better understanding of Ricoeur s thought and also of the distinctive issues that emerge through confrontation between Ricoeur and each of these post structuralist thinkers

Bloodrites of the Post-Structuralists Anne Norton,2013-04-15 How do you write history when it s no longer linear In *Bloodrites of the Post Structuralists* respected political theorist Anne Norton reminds us of the real interplay between words laws scriptures myths and texts and the world of flesh Drawing from sources as diverse as foundational myths from Sarah in the bible Marat in his death bath and thinkers like Hegel and Foucault Norton reinterprets the relationship between word and flesh and places it in historical context The French and English Revolutions as well as the period of anti colonialism and post colonialism are used to frame her discussion of word and body and their historical significance *Common ground* ,1998-01-01 Integration of designing and making are presented here as the common ground between contemporary craft architecture and the decorative arts This perspective offers a nuanced understanding of craft A photo essay documenting the integration of craft and architecture at the Fuji Pavilion in the Montreal Botanical Garden is also included Published in English

Structure and the Book of Zechariah Mike Butterworth,1992-01-01 This synthetic study has two primary tasks The first is to elucidate the structure of the book of Zechariah But in order to do this a satisfactory method of analysis must be found Thus the author begins by drawing up suitable literary criteria that will help to frame a reliable way of proceeding The method is then tested on the book of Zechariah and the results are compared with those of other biblical scholarship Although this is a study in rhetorical criticism it approaches the text from the standpoint of the authors and redactors intentions The result is a convincing and wide ranging analysis of the various and complex structural patterns of Zechariah **Screenplay and Narrative Theory** George Varotsis,2015-10-01 Screenplay and Narrative Theory draws attention to the notion that in order to comprehend complex narrative dynamics which are encountered in a great variety of narrative genres forms and formats a more comprehensive theory of narrative is required George Varotsis explains how a work of narrative functions synergistically and systemically as well as elucidates the heuristic problem solving mechanisms that are employed in various structural levels of thought processes which allow the coherent accumulative derivative we call

a story to emerge The transition from an empirical to theoretical perspective is achieved by introducing characteristics of complex narrative systems a network of narrative components i e characters structure goals motivations theme plot and subplots narrative action etc which are arranged hierarchically over three fundamental levels of structure i e deep intermediate and surface structure that interact parallel to one another in non linear ways Varotsis tackles questions about how stories semantically emerge in the underlying dynamics that allow a work of narrative to function as a unified whole
