Tommaso U. A. Sperotto

Struggle For Recognition:

The Struggle for Recognition Axel Honneth, 1995 In this major book Honneth argues that the struggle for recognition is and should be at the center of social conflicts Honneth examines the arguments put forward by Hegel in his Jena writings and situates them against the background of modern philosophy's conception of human life as a struggle for existence He shows how the notion of the struggle for recognition changes in Hegel's work as he moves from an intersubjective paradigm to one based on consciousness Drawing on Marx Sorel and Sartre he examines the importance of the struggle for recognition and of the moral basis of interaction in human conflicts Finally he discusses the relation between the recognition model and conceptions of modernity the normative basis of social theory and the possibility of mediating between Kant and Hegel The Struggle for Recognition draws together a wide variety of themes and concerns moving smoothly between moral philosophy and social theory It will be essential reading for anyone interested in this central aspect of Hegel's thought and more broadly in critical theory and social philosophy

The Critical Theory of Axel Honneth Danielle Petherbridge, 2013-09-05 The Critical Theory of Axel Honneth provides a comprehensive study of the work of Axel Honneth tracing the theoretical trajectory from his earliest writings on philosophical anthropology to the development of a theory of recognition The book argues that Honneth's early work provides important insights for the reconstruction of the normative project of critical theory and the articulation of a conceptual framework for analyzing social relations of power and domination Danielle Petherbridge contends however that these aims are not fully realized in Honneth's more mature project and that central insights recede as his project develops Petherbridge seeks to demonstrate that the basis for an alternative theory of intersubjectivity that can account for both an adequate theory of power and normative forms of subject formation can be immanently reconstructed from within Honneth's own work By contextualizing Honneth's project in relation to its theoretical influences The Critical Theory of Axel Honneth provides a critical study and excellent entry point that will be essential reading for both students and scholars who work in the areas of European philosophy critical theory social and political philosophy or social and political theory

Recognition Axel Honneth, 2020-10-22 Explores the complex history development and multiple associations of Recognition as a central political idea in Britain France and Germany

Recognition Struggles and Social Movements Barbara Hobson, 2003-11-27 Offers historical comparative and cross national perspectives to the debates on the politics of recognition

Causes of War Thomas Lindemann, 2024-08-22 Theories on the origins of war are often based on the premise that the rational actor is in pursuit of material satisfaction such as the quest for power or for wealth These perspectives disregard the need for homo symbolicus the preservation of a positive self image for both emotional and instrumental reasons A good reputation ensures authority and material resources Non recognition can be as much as an explanation of war as that of other explicative variables Two empirical studies examining the role of non recognition in great power conflicts and in international crises will demonstrate the value of this symbolic approach

The

Enigma of Justice Claire Nyblom, 2023-03-20 The Enigma of Justice Freedom and Morality in the Work of Immanuel Kant G W F Hegel Agnes Heller and Axel Honneth offers a novel perspective on the idea of justice Claire Nyblom argues that justice is a cultural and historical constant routinely summoned as if it were a foundational concept to legitimate or challenge social arrangements Instead justice is characterized by a plurality of theories containing regulative and critical dimensions that are in tension Nyblom argues that the categorical imperative can be positioned as a strong evaluative standard that mediates plurality creating a revisable idea of justice resistant to relativism After identifying the originating architecture of Immanuel Kant and G W F Hegel the discussion engages with the work of Agnes Heller and Axel Honneth using the pivots of justice as an analytic lens focused on commonalities rather than differences This framework leads to a dialogue between Heller and Honneth that strengthens their respective positions The Enigma of Justice provides a valuable study and insight into the contemporary nature of justice The book provides a useful orientation for students and scholars interested in debates about justice and to those working in the areas of European philosophy social and political theory sociology and the law

Between Cultures Alexander Garcia Duttmann, 2000-04-17 Moving effortlessly across disciplines this book approaches multiculturalism in the light of the struggle for recognition **Axel Honneth and the Movement of Recognition**

Tommaso U. A. Sperotto, 2022-06-21 The author explores the thought of one of the most important contemporary philosophers Axel Honneth in his attempt to develop a critical theory of society and to develop a third way between liberalism and republicanism At the heart of this attempt is the concept of recognition which is explored in all its multiple dimensions in order to develop a new image of subject society and freedom Subjectivity, Gender and the Struggle for Recognition P.

McQueen, 2014-12-15 In this book Paddy McQueen examines the role that recognition plays in our struggles to construct an identity and to make sense of ourselves as gendered beings It analyses how such struggles for gender recognition are shaped by social discourses and power relations and considers how feminism can best respond to these issues **Recognition and**

Power Bert van den Brink, David Owen, 2010-12-23 The topic of recognition has come to occupy a central place in contemporary debates in social and political theory Rooted in Hegel's work developed by George Herbert Mead and Charles Taylor it has been given renewed expression in the recent program for Critical Theory developed by Axel Honneth in his book The Struggle for Recognition Honneth's research program offers an empirically insightful way of reflecting on emancipatory struggles for greater justice and a powerful theoretical tool for generating a conception of justice and the good that enables the normative evaluation of such struggles
