Creature Discomforts Susan Conant,2009-11-18 A hike in the woods has memorable consequences for dog writer Holly Winter in this latest of Susan Conant's Dog Lover's Mysteries When Holly Winter awakens battered and bruised clinging to a boulder on the side of a cliff she doesn't even recognize her own beloved malamutes Rowdy and Kimi much less remember their names or her own She does however realize they're her dogs and that she is to put it mildly a dog person And she vaguely remembers hearing a sinister voice from above Putting clues together she discovers that she is in Acadia National Park on Mount Desert Island Maine and that she's the guest of one Gabrielle Beamon a most attractive and charming woman whom Holly doesn't recognize at all When it is discovered that there was another fall this one fatal at approximately the same time and close to the same place as Holly's she begins to fear for her own safety In fact she has all she can do to figure out what's going on without giving away her own loss of memory You'll be licking your chops with glee as the dog fanciers in Conant's eclectic and eccentric group of characters once more prove themselves smarter and more resourceful in every way than their more anthropocentric counterparts From the Hardcover edition **Gumshoes** Mitzi M. and delightful eccentrics An avid devotion to the works of Sir Arthur Conan Doyle and an equally avid devotion to dogs combine to draw Holly Winter and her two beloved malamutes Rowdy and Kimi into one of Conant's most original and entertaining mysteries to date Rowdy has finished his training as a therapy dog and now accompanies Holly on weekly visits to the Gateway Nursing Home where they meet Althea Battlefield still formidable at the age of ninety and her two elderly admiring cohorts Hugh and Robert all fanatic devotees of the Master as they call Sherlock Holmes When Althea's grandnephew is murdered at the home of her younger sister Ceci everyone is horrified but it's the plight of Ceci herself who is being victimized by an unscrupulous animal psychic that finally unites this unlikely group in a crime stopping spree that requires not only the finely tuned ratiocination of the Holmes admirers but the eager cooperation of an outraged Holly and the very particular talents of her willing canine accomplices No special knowledge of the Sherlockian canon is required for the utmost enjoyment of this engaging romp and Conant's own devoted followers will be delighted to find her dog loving alter ego Holly Winter still poking fun at the world of Cambridge eccentrics and dog fancy fanatics but also expanding her horizons into the world of literary trivia and yes feline rescue however initially reluctant From the Hardcover edition
