**School Violence Intervention** Jane Close Conoley, Arnold P. Goldstein, 2004-07-26 This work offers effective intervention strategies for managing school violence Opening with a range of perspectives on student aggression it provides a comprehensive view on practical interventions at the student school and systems levels Practitioners present empirically grounded strategies for an array of school settings and situations seeking to help readers make informed decisions about the approaches that would be most effective in their own environments The first part of the text presents information on the nature and prevalence of youth violence today and outlines strategies geared toward making the school physically safer establishing clear behaviour standards providing adequate adult presence enforcing rules fairly and sanctioning offenders and creating partnerships with outside agencies The chapters that follow describe a range of interventions directed toward aggressive students themselves which have proved highly effective in outcome evaluation research These approaches include behavioural classroom management crises and gang orientated interventions and preventative pre school programmes In addition it details school orientated strategies such as academic and curriculum interventions vandalism control and effective security policy Exploring the complex relationship among school behaviour family life and community chapters also consider avenues toward effecting change in the larger context of the students lives A hands on manual for dealing with some of the most intractable problems education professionals face this book offers extensive information for school psychologists and researchers

*Teaching Problem Students* Jere Brophy, 2003-07-29 Focuses on how teachers and school practitioners can improve the academic skills attitudes and coping abilities of students with behavior and adjustment problems Presented are findings from the Classroom Strategy Study which identifies widely used classroom management strategies that work and those that don t work for addressing a wide range of specific challenges in the elementary and middle grades

*Youth Violence* I. M. Rachia, 1999 This bibliography comprises a selection of Library of Congress catalog records for some 1 500

books periodicals and websites related to youth violence Anyone wanting such a bibliography could probably compile it from the Library of Congress web site and the deficiencies in conception and design of this product defy understanding A brief preface sounds an alarm no one should be surprised that youth violence lurks behind every school house door but sets forth no criteria for selection of citations no indication of time frame purpose or audience Entries are arranged alphabetically by title within chapters on school violence guns and youth gangs campus violence dating and violence and periodicals and Web sites Unforgivably primitive alphabetic sorting puts all titles beginning with The together the same with other articles and in addition those titles are indexed together Though the title indicates the presence of abstracts there are none except the summaries supplied by Library of Congress for juvenile titles of which there are many Cross referencing and indexing except by title are absent The compiler s credentials motivation and orientation are not cited Furthermore with better design the contents would have consumed half the number of pages and a few typeface variations would have eased scanning

The rash of school shootings in the late 1990s has generated a tremendous amount of public concern about youth aggression and violence But students trainees and professionals who work with children and adolescents have had no concise or systematic survey of our current knowledge about causes and effective approaches to intervention and prevention on which to draw Youth Aggression and Violence has filled the void Comprehensive and readable it utilizes theory and research from the developmental psychology of normal children and adolescents as well as material on abnormal forms of development such as disruptive behavior disorders and juvenile delinquency situates youthful aggression and violence within the overall framework of children s moral development integrates quantitative research with carefully considered qualitative research and case studies discusses the genetic and biological underpinnings of youthful aggression as well as family and social factors related to antisocial behavior emphasizes cognitive motivational and emotional processes involved in youth aggression and violence provides in depth coverage of juvenile killers and school violence examines female aggression and violence in a variety of contexts and critically examines a number of questions frequently discussed in conjunction with youth violence such as media violence firearm accessibility and the relationship between self esteem and aggression      *Preventing Violence in Schools* Joan N. Burstyn, Geoff Bender, Ronnie Casella, Howard W. Gordon, Domingo P. Guerra, 2001-04-01 School violence is a burning issue these days This book provides an in depth analysis of violence prevention programs and an assessment of their effectiveness using data from observations individual interviews and focus groups as well as published data from the schools It is distinguished by its focus on the cultural and structural context of school violence and violence prevention efforts Where most other researchers use quantitative measures such as surveys to assess the effectiveness of violence prevention programs the authors of this book use qualitative research and ethnography to study the environment where such programs take place Thus this work one of only a few ethnographic studies of violence prevention programs in

schools links previous quantitative research on the topic and critical ethnography Preventing Violence in Schools A Challenge to American Democracy includes voices of school students accused of practicing violence who have been participants in violence prevention programs analyzes a citywide peer mediation program who benefits and who does not who is mediated and who mediates and what the implications of these findings may be examines the kinds of violence recognized in schools and the ways schools themselves may perpetuate violence and describes a violence prevention program for students at an alternative school Preventing Violence in Schools A Challenge to American Democracy is highly relevant for students in courses on urban education foundations of education education and social policy youth and the law and qualitative research and for teachers administrators and other professionals such as school psychologists and guidance counselors at the middle and high school levels

**Behavioral Management in the Public Schools** Nancy Macciomei, 1999-11-30 Macciomei and Ruben provide the first compendium entirely devoted to the exigency and pathology of serious teen aggression including homicidal and combative problems It responds to the national wave of school shootings and teen crime dangerously threatening classrooms Failures of traditional disciplinary practice cause perennial frustrations for principals teachers and school districts in general This professional guide steps up to the challenge of this chaos and provides empirically tested methods for classroom application including advancing steps to integrate school and community alternative assessments cultural diversity programming and peer mediation innovations Easy to use methods based in research discussion prove that public school systems can win the war against urban oppression
