American Justice Terry K. Aladjem, 2008-01-14 America is driven by vengeance in Terry Aladjem's provocative account a reactive public anger that is a threat to democratic justice itself From the return of the death penalty to the wars on terror and in Iraq Americans demand retribution and moral certainty they assert the rights of victims and make pronouncements against evil Yet for Aladjem this dangerously authoritarian turn has its origins in the tradition of liberal justice itself in theories of punishment that justify inflicting pain and in the punitive practices that result Exploring vengeance as the defining problem of our time Aladjem returns to the theories of Locke Hegel and Mill He engages the ancient Greeks Nietzsche Paine and Foucault to challenge liberal assumptions about punishment He interrogates American law capital punishment and images of justice in the media He envisions a democratic justice that is better able to contain its vengeance

The Digital Child Daniel Dervin, 2017-10-18 Nothing is more synonymous with the twenty first century than the image of a child on his or her smart phone tablet video game console television and or laptop But with all this external stimulation has childhood development been helped or hindered Daniel Dervin is concerned that today's childhood has become unmoored from its Rousseauist Wordsworthian anchors in nature He considers children's development to be inextricably linked with inwardness a psychological concept referring to the awareness of one's self as derived from the world and the internalization of such reflections Inwardness is the enabling space that allows one's thoughts experiences and emotions to be processed It is an important adaptive marker of human evolution In *The Digital Child* Dervin traces the evolution of how we have perceived childhood in the West and thus what we have meant by inwardness from pre history to today He identifies six transformational stages tribal pedagogical religious humanist rational and citizen leading up to a new stage the digital child This stage has emerged from current unprecedented and pervasive technological culture Dervin delves deeply into each stage that precedes today's studying myths literary texts the visual arts cultural histories media reports and the traditions of parenting pediatrics and pedagogy Weaving together approaches from biology culture and psychology Dervin revisits who we once were as a species in order to enable us to grasp who we are becoming and where we might be heading for better or worse

The New Cold War? Mark Juergensmeyer, 2023-04-28 Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Central Asia and Eastern Europe Impassioned Muslim leaders in Egypt Palestine and Algeria political rabbis in Israel militant Sikhs in India and triumphant Catholic clergy in Eastern Europe are all players in Juergensmeyer's study of the explosive growth of religious movements that decisively reject Western ideas of secular nationalism Juergensmeyer revises our notions of religious revolutions Instead of viewing religious nationalists as wild eyed anti American fanatics he reveals them as modern activists pursuing a legitimate form of politics He explores the positive role religion can play in the political life of modern nations even while acknowledging some religious nationalists proclivity to violence and disregard of Western notions of human rights Finally he situates the growth of

religious nationalism in the context of the political malaise of the modern West Noting that the synthesis of traditional religion and secular nationalism yields a religious version of the modern nation state Juergensmeyer claims that such a political entity could conceivably embrace democratic values and human rights Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Centr **Sacred Pain** Ariel

Glucklich,2003-10-30 Why would anyone seek out the very experience the rest of us most wish to avoid Why would religious worshipers flog or crucify themselves sleep on spikes hang suspended by their flesh or walk for miles through scorching deserts with bare and bloodied feet In this insightful new book Ariel Glucklich argues that the experience of ritual pain far from being a form of a madness or superstition contains a hidden rationality and can bring about a profound transformation of the consciousness and identity of the spiritual seeker Steering a course between purely cultural and purely biological explanations Glucklich approaches sacred pain from the perspective of the practitioner to fully examine the psychological and spiritual effects of self hurting He discusses the scientific understanding of pain drawing on research in fields such as neuropsychology and neurology He also ranges over a broad spectrum of historical and cultural contexts showing the many ways mystics saints pilgrims mourners shamans Taoists Muslims Hindus Native Americans and indeed members of virtually every religion have used pain to achieve a greater identification with God He examines how pain has served as a punishment for sin a cure for disease a weapon against the body and its desires or a means by which the ego may be transcended and spiritual sickness healed When pain transgresses the limits the Muslim mystic Mizra Asadullah Ghalib is quoted as saying it becomes medicine Based on extensive research and written with both empathy and critical insight Sacred Pain explores the uncharted inner terrain of self hurting and reveals how meaningful suffering has been used to heal the human spirit

Oedipus at Colonus Andreas Markantonatos,2012-02-14 This book aims to offer a contemporary literary interpretation of the play including a readable discussion of its underlying historical religious moral social and mythical issues Also it discusses the most recent interpretative scholarship on the play the main intertextual affiliations with earlier Thebes related tragedies especially focusing on Sophocles Antigone and Oedipus Tyrannus and the literature and performance reception of the play it contains an up to date bibliography and detailed indices The book won the Academy of Athens Great Award for the Best Monograph in Classical Philology for 2008 **A Little Matter of Genocide** Ward Churchill,1997 Ward Churchill has

achieved an unparalleled reputation as a scholar activist and analyst of indigenous issues in North America Here he explores the history of holocaust and denial in this hemisphere beginning with the arrival of Columbus and continuing on into the present He frames the matter by examining both revisionist denial of the nazi perpetrated Holocaust and the opposing claim of its exclusive uniqueness using the full scope of what happened in Europe as a backdrop against which to demonstrate that genocide is precisely what has been and still is carried out against the American Indians Churchill lays bare the means by

which many of these realities have remained hidden how public understanding of this most monstrous of crimes has been subverted not only by its perpetrators and their beneficiaries but by the institutions and individuals who perceive advantages in the confusion In particular he outlines the reasons underlying the United States s 40 year refusal to ratify the Genocide Convention as well as the implications of the attempt to exempt itself from compliance when it finally offered its endorsement In conclusion Churchill proposes a more adequate and coherent definition of the crime as a basis for identifying punishing and preventing genocidal practices wherever and whenever they occur Ward Churchill enrolled Keetoowah Cherokee is Professor of American Indian Studies with the Department of Ethnic Studies at the University of Colorado Boulder A member of the American Indian Movement since 1972 he has been a leader of the Colorado chapter for the past fifteen years Among his previous books have been *Fantasies of a Master Race* *Struggle for the Land* *Since Predator Came* and *From a Native Son*

Richard Landes, 2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on Earth Here Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon *Children and Childhood in Classical Athens* Mark Golden, 1993-02 Mark Golden has produced a superb book an important substantive and methodological contribution to the social history of ancient Athens and a model for comparable studies *American Historical Review* **Death and the Displacement of Beauty: Foundations of violence** Grace

Jantzen, 2004 *Foundations of Violence* enters the ancient world of Homer Plato and Aristotle to explore the genealogy of violence in Western thought through its emergence in Greece and Rome **Diversity, Discipline and Devotion in Psychoanalytic Psychotherapy** Gertrud Mander, 2018-04-17 This book is a selection of papers written over 25 years of practising psychoanalytic psychotherapy of training and supervising psychotherapists psychodynamic counsellors and supervisors It reflects a preoccupation with the growth and diversification of counselling and psychotherapy with the imperatives of training supervision and regulation and with the significant changes in the profession due to the invention of brief time limited intermittent and recurrent psychotherapy An overall theme is the conviction that what patients and therapists share is vulnerability and that the therapist is a wounded healer whose reparative tendency informs his

professional choice his therapeutic empathy and his capacity to bear the rigours of therapeutic work Thus an unconscious connection between the helper and the helped is the driving force of every therapeutic relationship for better and for worse Its responsible management requires thorough training ongoing supervision and a firm frame in order to contain the powerful forces operating when two strangers meet for the purpose of therapy
