The Lyrical Bridge Essays From Holderlin To Benn:

The Lyrical Bridge Philip Grundlehner, 1979 Analyzes in detail nine German poems each representing a different literary era containing the bridge as a poetic symbol Includes poems by Holderlin Nietzsche Rilke and Benn **Nietzsche, Freud, Benn, and the Azure Spell of Liguria** Martina Kolb, 2013-06-18 The Mediterranean region of Liguria where the Maritime Alps sweep down to the coasts of northwest Italy and southeast France the Riviera marks the intersection of two of Europe's major cultural landscapes Remote liminal compact and steep the terrain has influenced many international authors and artists In this study Martina Kolb traces Liguria's specific impact on the works of three seminal German writing modernists Friedrich Nietzsche Sigmund Freud and Gottfried Benn whose encounters with Ligurian lands and seas led to an innovative geopoetic fusion of word and world Kolb examines each of these authors acquired affinities with Ligurian and Provençal landscapes and seascapes revisiting and reassessing the long tradition of northern longing for a Mediterranean south She also shows how Freud and Benn followed in the footsteps of Nietzsche in his most prolific years a topic which has received little critical attention to date Nietzsche Freud Benn and the Azure Spell of Liguria offers a fresh approach to these writers groundbreaking literary achievements and profound interest in poetic expression as cathartic self liberation *The Poetry of Gottfried Benn* Martin Travers, 2007 This book is the first comprehensive study of Gottfried Benn's poetry to appear in English It covers the entirety of Benn's verse from his early Morgue cycle 1912 and Expressionist poems through to the anthropological poetry of his middle period to the postmodern Phase II work after the Second World War Against the background of the poet's theoretical writings this study drawing upon the classic texts of Benn scholarship analyzes in detail the major themes of his verse and its distinctive idiom In particular this work focuses on Gottfried Benn's extended process of rhetorical self fashioning his use of classical iconography color motifs and chiffres his often confusing historical semantics the seemingly self constituting absolute poem and the colloquial idiom of his late verse The book also engages with the multiplicity of voices in Benn's work and their varied textual forms the hermeneutically variable positions of speech that they articulate and the often contradictory notion of selfhood to which they give rise **Encyclopedia of the Essay** Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies On the Seventh Solitude Rohit Sharma, 2006 Much as Nietzsche has gained in popularity during the last century his poetry still has not received the scholarly attention it deserves On closer scrutiny his aposiopetic style along with the labyrinthine and self referential nature of his writings subtly hint toward the recurring and

parallel presence of poetry in his writings This fact cannot be ignored and his poetry should therefore be included in any reading of Nietzsche This study investigates Nietzsche s poetic output while simultaneously regarding him as a poet philosopher This reading allows juxtaposing all Nietzschean key concepts while avoiding the temptation to simplify Nietzsche by centering his thought on any particular one The author ends by highlighting a hitherto neglected term that allows a simultaneous reading of Nietzschean keywords while also including the essential notions of movement flux and play
