Comparative Responses to Globalization M. Umemura, R. Fujioka, 2012-10-29 Explores how British and Japanese firms have responded to globalization from a long term perspective Incorporates studies from the 18th century and sheds light on the impact of the institutional setting the influence of government and entrepreneurs and the weight of historical contingency in conditioning firm responses to globalization **Automating Finance** Juan Pablo Pardo-Guerra, 2019-05-16 Explains how stock markets became automated through the work of invisible technologists redefining the fabric of finance **The Chinese Economy in the 1990s** J. Ma, 1999-09-20 This book provides a comprehensive for the twenty first century overview and some economic analysis of China's economic reform experiences particularly those since the late 1980s It covers many institutional details of key aspects of the Chinese economy including fiscal and monetary management financial sector development state enterprise reform international trade foreign investment decentralization and regional development It is argued that while China has achieved a spectacular growth record over the past twenty years and its reform efforts have successfully laid the foundation of a market based economic management system the country continues to face major Contests for Corporate Control Mary O'Sullivan, 2000-04-20 During challenges in sustaining its growth performance the 1990s corporate governance became a hot issue in all of the advanced economies For decades major business corporations had reinvested earnings and developed long term relations with their labour forces as they expanded the scale and scope of their operations As a result these corporations had made themselves central to resource allocation and economic performance in the national economies in which they had evolved Then beginning in the 1980s and picking up momentum in the 1990s came the contests for corporate control Previously silent stockholders now empowered by institutional investors demanded that corporations be run to maximize shareholder value In this highly original book Mary O Sullivan provides a critical analysis of the theoretical foundations for this principle of corporate governance and for the alternative perspective that corporations should be run in the interests of stakeholders. She embeds her arguments on the relation between corporate governance and economic performance in historical accounts of the dynamics of corporate growth in the United States and Germany over the course of the twentieth century O Sullivan explains the emergence and consequences of maximizing shareholder value as a principle of corporate governance in the United States over the past two decades and provides unique insights into the contests for corporate control that have unfolded in Germany over the past few Stock Market Crashes of 1998 and 1999 Raveendra N. Batra, Ravi Batra, 1997 The Cumulative Book Index years What is an Exchange? Ruben Lee,1998-11-12 New technology has ,1996 A world list of books in the English language revolutionized the nature and threatened the existence of traditional stock and futures exchanges This book analyses how they have responded to developments in automation **Competition and Corporate Governance in Korea** Sung-Hee Jwa, In Kwon Lee, 2004-01-01 This informative book will appeal to academics and researchers of industrial organization
