The Magic Lantern The Revolution Of 89 Witnessed In Warsaw Budapest Berlin And Prague:

The Magic Lantern Timothy Garton Ash, 1993-08-31 The Magic Lantern is one of those rare books that define a historic moment written by a brilliant witness who was also a participant in epochal events Whether covering Poland's first free parliamentary elections in which Solidarity found itself in the position of trying to limit the scope of its victory or sitting in at the meetings of an unlikely coalition of bohemian intellectuals and Catholic clerics orchestrating the liberation of Czechoslovakia Garton Ash writes with enormous sympathy and power This book is a stunningly evocative portrait of the revolutions that swept Communism from Eastern Europe in 1989 and whose aftereffects are still being felt today As Garton Ash writes in an incisive new afterword from the perspective of three decades later Freedom's battle is never finally won It must be fought anew in every generation

not lost their political significance In fact just the opposite holds true The opening of many formerly closed Communist archives has given scholars the opportunity to research the political significance that the construction of the self had across Communist regimes polities and movements Incorporating the latest scholarship *The Communist Experience in the Twentieth Century* includes previously unavailable documents such as diaries and letters which are now accessible as a result of the archival revolution A photo essay *Everyday Life and Everyday Things under Socialism 1945-1989* uses visual evidence to explore everyday life across the Communist civilizations A locator map at the beginning of each chapter identifies the places associated with each of the sources and a chronology provides a comparative timeline for Communist and world history

Negotiated Revolutions George Lawson, 2017-03-02 Straightforward histories of post revolution States have all too often failed to provide sufficient context to rescue revolution both as concept and practice from the misplaced triumphalism of the contemporary world In *Negotiated Revolutions* George Lawson marks a definitive departure in the study of radical political and socio economic change presenting a unique comparative analysis of three transformations from authoritarian rule to market democracy Through the lens of international sociology the book critically considers the large scale processes of social and political revolution bringing three apparently distinct transformations from seemingly disparate authoritarian regimes and geographies under a common rubric With unique and novel conceptual analysis the book accurately locates both the potential and actuality of radical change in contemporary world affairs processes usually mistakenly subsumed under the general framework of transitology

Czechoslovakia Michael Brenner, 1997-11-13 This book the most thoroughly researched and accurate history of Czechoslovakia to appear in English tells the story of the country from its founding in 1918 to partition in 1992 from fledgling democracy through Nazi occupation Communist rule and invasion by the Soviet Union to at last democracy again The common Western view of Czechoslovakia has been that of a small nation that was sacrificed at Munich in 1938 and betrayed to the Soviets in 1948 and which rebelled heroically against the repression of the Soviet Union during the Prague Spring of 1968 Mary Heimann dispels these myths and shows how intolerant nationalism and an unhelpful sense of victimhood led Czech and Slovak authorities to discriminate against minorities compete with the Nazis to persecute Jews and Gypsies and pave the way for the Communist police state She also reveals Alexander Dubcek held to be a national hero and standard bearer for democracy to be an unprincipled apparatchik Well written revisionist and accessible this groundbreaking book
