The Majesty that was Islam William Montgomery Watt,1974 **An Introduction to the Hidden Treasures of Islam** Syed Hasanat Ahmad,2010-06-30 Comprising introductions and brief summaries of each of the 91 books written by the Founder of the Ahmadiyya Muslim Community Hazrat Mirza Ghulam Ahmad the Promised Messiah and Imam Mahdi may peace be upon him The Great Islamic Conquests AD 632-750 David Nicolle,2014-06-06 Few centuries in world history have had such a profound and long lasting impact as the first hundred years of Islamic history In this book David Nicolle examines the extensive Islamic conquests between AD 632 and 750 These years saw the religion and culture of Islam erupt from the Arabian Peninsula and spread across an area far larger than that of the Roman Empire The effects of this rapid expansion were to shape European affairs for centuries to come This book examines the social and military history of the period describing how and why the Islamic expansion was so successful The Sacred Books of Judaism, Christianity and Islam Various Authors,2022-05-17 The Sacred Books of Judaism Christianity and Islam presents an intricate tapestry of texts that are foundational to the three major monotheistic faiths This anthology not only compiles significant scriptures such as the Hebrew Bible the New Testament and the Quran but also explores them through a comparative lens revealing the interconnections and distinct theological frameworks that have shaped religious thought and practice throughout history The literary style embraces scholarly rigor while remaining accessible inviting readers to contemplate the profound narratives hymns and legal codes that define each tradition The contributors to this collection a diverse group of scholars and theologians bring their expertise in religious studies historical contexts and scriptural interpretation Their insights are informed by years of academic inquiry and personal engagement with faith traditions allowing for a nuanced presentation of scriptures that acknowledges both their historical origins and contemporary relevance This work emerges from a growing scholarly interest in dialogical approaches to understanding religion in our pluralistic world This anthology is highly recommended for anyone interested in the shared roots and distinctive elements of these faiths as it fosters a deeper appreciation for the sacred narratives that continue to resonate in the lives of millions Whether you are a student of theology a curious seeker or an interfaith practitioner this compilation serves as an essential resource for understanding how these texts inform ethical social and spiritual dimensions in today's global society *Islam and the Path to Human and Economic Development* A. Killing the Arab Spring Hasan Afif el-Hasan, 2019-05-01 Killing the Arab Spring tells the stories of the Arab Spring uprising in 15 Middle East states from the point of view of a secular Middle Eastern political analyst familiar with the politics the culture of the people and the history of the area Dr Hasan views the vast majority of the Arab rulers deriving their absolute authority from inheritance or military coups or in the case of the Saudis from conquest not at the pleasure of the governed Arab leaders do not believe that government is a trust on behalf of the people They believe that if there is democracy and their societies are composed of equal and competing individuals there will be a tendency towards anarchy People involved in the Arab Spring uprisings demanded inclusive and equitable democracy social justice and economic development There were no civil society institutions strong enough to challenge the weapons of authoritarianism that included ideology repression payoffs and the solidarity of the crony capitalists The author argues that Saddam Hussein's 1980 war on Iran was the spark that started a chain of bloody wars and events which eventually led to the US invasion of Iraq and the Arab Spring uprisings The revolts and the counter revolts took different forms in each country based on its history the type of government and the economy The author argues that the Arab Spring is a step of a long process toward democracy rather than an aberration between periods of authoritarian regimes To understand the Arab Spring causes and its aftermath the book provides the reader with a review of the Middle East common culture that includes the history of Islamic religion Islamic sects and Arab tribalism and brief history of each country There are few activities more controversial than writing history of a nation involved in a conflict Even while witnessing history unfolding in a country different historians provide different narratives different causes and different conclusions This becomes more obvious when the history of the conflicts is viewed through the prism of the politics of sectarianism ethnicity and tribalism The author
