Hollywood in China Ying Zhu, 2022-04-12 China surpassed North America to become the world's largest movie market in 2020. Formerly the focus of exotic fascination in the golden age of Hollywood, today the Chinese are a make or break audience for Hollywood's biggest blockbusters. And movies are now an essential part of China's global soft power strategy. A Chinese real estate tycoon who until recently was the major shareholder of the AMC theater chain built the world's largest film production facility. Behind the curtains, as this brilliant new book reveals, movies have become one of the biggest areas of competition between the world's two remaining superpowers. Will Hollywood be eclipsed by its Chinese counterpart? No author is better positioned to untangle this riddle than Ying Zhu, a leading expert on Chinese film and media. In fascinating vignettes, *Hollywood in China* unravels the century-long relationship between Hollywood and China for the first time. Blending cultural history, business, and international relations, *Hollywood in China* charts multiple power dynamics and teases out how competing political and economic interests, as well as cultural values, are manifested in the art and artifice of filmmaking on a global scale and with global ramifications. The book is an inside look at the intense business and political maneuvering that is shaping the movies and the U.S.-China relationship itself, revealing a headlines-grabbing conflict that is playing out not only on the high seas but on the silver screen.

Deconstructing Martial Arts Paul Bowman, 2019-06-24 What is the essence of martial arts? What is their place in, or relationship with, culture and society? *Deconstructing Martial Arts* analyses familiar issues and debates that arise in scholarly, practitioner, and popular cultural discussions and treatments of martial arts and argues that martial arts are dynamic and variable constructs whose meanings and values regularly shift, mutate, and transform depending on the context. It argues that deconstructing martial arts is an invaluable approach to both the scholarly study of martial arts in culture and society and also to wider understandings of what and why martial arts are. Placing martial arts in relation to core questions and concerns of media and cultural studies around identity, value, orientalism, and embodiment, *Deconstructing Martial Arts* introduces and elaborates deconstruction as a rewarding method of cultural studies.

A Brief History of the Martial Arts Jonathan Clements, 2016-10-13 If I had to pick a single general martial arts history book in English, I would recommend *A Brief History of the Martial Arts* by Dr. Jonathan Clements. RICHARD BEITLICH, Martial History Team blog. From Shaolin warrior monks to the movies of Bruce Lee, a new history of the evolution of East Asian styles of unarmed combat, from Kung Fu to Ninjutsu. Folk tales of the Shaolin Temple depict warrior monks with superhuman abilities. Today, dozens of East Asian fighting styles trace their roots back to the Buddhist brawlers of Shaolin, although any quest for the true story soon wanders into a labyrinth of forgeries, secret texts, and modern retellings. This new study approaches the martial arts from their origins in military exercises and callisthenics. It examines a rich folklore from old wuxia tales of crime-fighting heroes to modern kung fu movies. Centre stage is given to the stories that martial artists tell themselves about themselves, with accounts both factual and fictional of famous practitioners, including China's Yim Wing-chun, Wong Fei-hong, and Ip Man, as well as Japanese counterparts such as Kano Jigoro, Itosu Anko, and So Doshin. The history

of martial arts encompasses secret societies and religious rebels with intimate glimpses of the histories of China Korea and Japan their conflicts and transformations The book also charts the migration of martial arts to the United States and beyond Special attention is paid to the turmoil of the twentieth century the cross cultural influence of Japanese colonies in Asia and the post war rise of martial arts in sport and entertainment including the legacy of Bruce Lee the dilemma of the ninja and the global audience for martial arts in fiction **Speaking in Images** Michael Berry,2005 Interviews with Ang Lee Crouching Tiger Hidden Dragon and other Chinese directors about their work the ways it has impacted both on the film industry in China as well as on the world scene *Black Belt* ,1973-08 The oldest and most respected martial arts title in the industry this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self defense in the world including techniques and strategies In addition Black Belt produces and markets over 75 martial arts oriented books and videos including many about the works of Bruce Lee the best known martial arts figure in the world
