the militarization of Canadian society *Building a Special Relationship* Asa McKercher, Michael D. Stevenson, 2024-06-15

Building a Special Relationship offers thoughtful insight into Canadian and American foreign relations during the 1950s when Canada and the United States found new diplomatic footing as allies in the shadow of the Cold War. This book shows how the Eisenhower years were crucial in forming the bilateral relationship that currently exists between Canada and the United States. Under President Eisenhower and Prime Ministers St. Laurent and Diefenbaker, policy makers on both sides of the border collaborated with an air of tolerant accommodation on significant issues of the day. Despite frequent differences, they established frameworks for defence, foreign policy, economic growth, and resource management, many of which endure today. For scholars and readers of political history, international relations, and diplomacy, Building a Special Relationship makes a compelling case that the Eisenhower era is key to understanding the ongoing bond between these two nations. **Canada's Department of External Affairs: Coming of age, 1946-1968** John Hilliker, Donald Barry, 1990

The second volume of the official history of the Department of External Affairs, Coming of Age, covers a period of remarkable expansion and achievement in Canadian external relations. *Canada's Department of External Affairs, Volume 2* John Hilliker, Donald Barry, 1995-04-04

In 1946, with its own minister for the first time, the Department of External Affairs embarked on a period of impressive growth and assumed responsibility for a broader range of foreign policy issues than ever before. Under the expert guidance of Lester Pearson, for a decade the department enjoyed popular and parliamentary consensus about international interests. The election of the Diefenbaker government in 1957 deprived the department of Pearson's experienced ministerial direction and exposed it to new priorities and new ways of doing things. At this time, foreign policy consensus began to erode. As well, there was pressure to respond to the administrative revolution inaugurated by the Royal Commission on Government Organization. The Glassco Commission, appointed in 1960, after Pearson returned to office as prime minister in 1963, questioning by the public and also by the governing party, and the cabinet became more fervent. Coming of Age concludes in 1968, as indications of a challenge to the principles underlying Canadian foreign policy emerged from a new generation of ministers, a challenge that would produce major changes after Pierre Trudeau became prime minister. *Deterring Armageddon: A Biography of NATO* Peter Apps, 2024-02-01

EXCELLENT THE TLS HUGELY IMPRESSIVE THE INDEPENDENT AN ASTONISHINGLY FINE HISTORY COUNTRY LIFE FASCINATING DAILY MAIL

The history of the world's most successful military alliance from the wrecked Europe of 1945 to Vladimir Putin's invasion of Ukraine. As they signed NATO into being after World War II, its founders fervently believed that only if the West's democracies banded permanently together could they avoid a catastrophic global atomic conflict. Over the 75 years since the alliance has indeed avoided war with Russia, also becoming a major political, strategic, and diplomatic player well beyond its borders. It has survived disagreements between leaders from Eisenhower, Churchill, and de Gaulle to Trump, Stoltenberg, and Merkel; faced down Kremlin foes from Stalin to Putin; and endured unending questions and debate over what new nations might be allowed to

join *Deterring Armageddon* takes the reader from backroom deals that led to NATO's creation through the Cold War the Balkans and Afghanistan to the current confrontation with the Kremlin following the invasion of Ukraine. It examines the tightrope walked by alliance leaders between a powerful United States sometimes flirting with isolationism and European nations with their ever evolving wishes for autonomy and influence. Having spent much of its life preparing for conflicts that might never come, NATO has sometimes found itself in wars that few had predicted and with its members now again planning for a potential major European conflict. It is a tale of tension, danger, rivalry, conflict, big personalities and high stakes military and diplomatic posturing as well as espionage, politics and protest. From the Korean War to the pandemic, the Berlin and Cuba crises to the chaotic evacuation from Kabul, *Deterring Armageddon* tells how the alliance has shaped and been shaped by history and looks ahead to what might be the most dangerous era it has ever faced. Utterly eye opening, compelling, haunting and continually illuminating. As Peter Apps so brilliantly demonstrates in this gripping book, the story of the NATO alliance is in many ways a parallel global history of the last 75 years. As well as all the outbreaks of seething tension between the US and its European allies and the counter moves of rival powers, this is also an account of just how often in those postwar years that we all stood on the edge of the most terrible abyss. With mesmerising fluency and dazzling research, Apps follows the criss crossing threads of the Cold War and beyond. Those threads converge in our shadowed present and the conflict in Ukraine. In order to fathom today's dark world, Apps has explored a labyrinth of once classified history and he brings dazzling clarity.

Sinclair McKay Canada and the World since 1867 Asa McKercher, 2019-09-19 This book is a history of Canada's role in the world as well as the impact of world events on Canada. Starting from the country's quasi independence from Britain in 1867, its analysis moves through events in Canadian and global history to the present day. Looking at Canada's international relations from the perspective of elite actors and normal people alike, this study draws on original research and the latest work on Canadian international and transnational history to examine Canadians' involvement with a diverse mix of issues from trade and aid to war and peace to human rights and migration. The book traces four inter connected themes: independence and growing estrangement from Britain; the longstanding and ongoing tensions created by ever closer relations with the United States; the huge movement of people from around the world into Canada; and the often overlooked but significant range of Canadian contacts with the non Western world. With an emphasis on the reciprocal nature of Canada's involvement in world affairs, ultimately it is the first work to blend international and transnational approaches to the history of Canadian international relations.
