Wordsworth Paul Magnuson, 2014-07-14 Paul Magnuson contends that the relationship between Coleridge's and Wordsworth's poetry is so complex that a new criticism is required to trace its intricacies. This book demonstrates that their poems may be read as parts of a single evolving whole: a dialogue in which the works of one are responses to and rewritings of those of the other. Professor Magnuson discloses this dialogue as a joint canon or sequence which includes the complete early versions of poems as well as fragments, canceled drafts, and poems in progress. He further shows that this sequence is based on lyric structure: the relations among its poems and fragments resemble those among stanzas in an ode, and individual poems take their significance from their surrounding contexts in the dialogue. Coleridge's and Wordsworth's poetic conversation arose from their recognition that their themes and styles were similar. There were, as one of Coleridge's friends said, fears of amalgamation, and it was actually from their failed attempts to collaborate on individual works that their dialogue began. The first chapter of the book elaborates a dialogic methodology, and the following chapters discuss the dialogic relationship between Wordsworth's Salisbury Plain poems and *The Ancient Mariner*; *The Ruined Cottage*; and Coleridge's *Christabel*; Coleridge's Conversation Poems and Wordsworth's Tintern Abbey; Wordsworth's Goslar poetry of 1798; *Home at Grasmere* and *Lyrical Ballads* 1800; and the dejection dialogue of 1802. Originally published in 1988, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Cambridge Companion to 'Lyrical Ballads' Sally Bushell, 2020-01-09 This accessible collection of essays provides an essential introduction to the volume of poetry that defined British Romanticism. *Coleridge's Ancient Mariner* J. C. C. Mays, 2016-10-27 This is the first book-length study to read *The Ancient Mariner* as poetry in Coleridge's own particular sense of the word. Coleridge's complicated relationship with the Mariner as an experimental poem lies in its origin as a joint project with Wordsworth. J. C. C. Mays traces the changes in the several versions published in Coleridge's lifetime and shows how Wordsworth's troubled reaction to the poem influenced its subsequent interpretation. This is also the first book to situate the Mariner in the context of the entirety of Coleridge's prose and verse now available in the Bollingen Collected edition and Notebooks, that is not only in relation to other poems like *The Ballad of the Dark Lady* and *Alice du Chateau* but also to ideas in his literary criticism, especially *Biographia Literaria*, philosophy, and theology. Using a combination of close reading and broad historical considerations, reception theory, and book history, Mays surveys the poem's continuing life in illustrated editions and educational textbooks, its passage through the vicissitudes of New Criticism and critical theory, and in a final chapter, its surprising affinities with some experimental poems of the present time. **The Passion of Meter** Brennan O'Donnell, 1995 This is a study of Wordsworth's metrical theory and his practice in the art of versification. It provides a detailed treatment of

what Wordsworth calls the innumerable minutiae that the art of the poet depends upon and of the broader vision to which these minutiae contribute *Wordsworth in His Major Lyrics* Leon Waldo, 2001 *Wordsworth and Coleridge* Nicholas Roe, 2018 An updated reappraisal of Wordsworth's and Coleridge's radical careers before their emergence as major poets

Wordsworth, Coleridge, and 'the language of the heavens' Thomas Owens, 2019-05-30 Thomas Owens explores some of the exultant visions inspired by Wordsworth's and Coleridge's close scrutiny of the night sky the natural world and the domains of science He examines a set of scientific patterns drawn from natural geometric celestial and astronomical sources which Wordsworth and Coleridge used to express their ideas about poetry religion literary criticism and philosophy and establishes the central importance of analogy in their creative thinking Analogies prompted the poets' imaginings in geometry and cartography in nature representations of the moon and natural history studies of spider webs streams and dew in calculus and conical refraction and in the discovery of infra red and ultraviolet light Although this is primarily a study of the patterns which inspired their writing the findings overturn the prevalent critical consensus that Wordsworth and Coleridge did not have the access interest or capacity to understand the latest developments in nineteenth century astronomy and mathematics which they did in fact possess Wordsworth Coleridge and the language of the heavens reinstates many relationships which the poets had with scientists and their sources Most significantly the book illustrates that these sources are not simply another context or historical lens through which to engage with Wordsworth's and Coleridge's work but are instead a controlling device of the symbolic imagination Exploring the structures behind Wordsworth's and Coleridge's poems and metaphysics stakes out a return to the evidence of the Romantic imagination not for its own sake but in order to reveal that their analogical configuration of the world provided them with a scaffold for thinking an intellectual orrery which ordered artistic consciousness and which they never abandoned

Wordsworth's Classical Undersong Richard Clancey, 2016-06-01 Wordsworth's classical education presents an amazing paradox Gifted teachers trained him in the full rigours of classical Latin and Greek But Wordsworth's schoolmasters were enlightened liberal and advanced They were committed to the Classics and to modern literature In their enthusiasm they shared their volumes of contemporary poetry with Wordsworth His was a holistic literary education Wordsworth developed a profound love for the Classics and thus an enlightened zeal for a new poetry a poetry capable of being compared with and even daring to compete with the Classical texts he so dearly loved Richard Clancey's meticulously researched study presents new biographical information on Wordsworth's classical education and new facts about the education of his teachers
