Congress. Senate. Committee on Labor and Human Resources, 1984 The Life of Mary Baker G. Eddy and the History of Christian Science Willa Cather, 1993-01-01 This controversial biography of the founder of the Christian Science church was serialized in McClure's Magazine in 1907 and published as a book the next year. It disappeared almost overnight and has been difficult to find ever since. Although a Canadian newspaperwoman named Georgine Milmine collected the material and was credited as the author, *The Life of Mary Baker G. Eddy* was actually written by Willa Cather, an editor at McClure's at that time. In his introduction to this Bison Book edition, David Stouck reveals new evidence of Cather's authorship of *The Life of Mary Baker G. Eddy*. He discusses her fidelity to facts and her concern with psychology and philosophy that would take creative form later on. Indeed, this biography contains some of the finest portrait sketches and reflections on human nature that Willa Cather would ever write. Journal of the American Medical Association, 1904 The Life of Mary Baker Eddy and the History of Christian Science Georgine Milmine, 1909 **Military Law Review**, 1981 **Current Catalog** National Library of Medicine (U.S.), 1979 Includes subject section, name section, and 1968-1970 technical reports The Watchdog That Didn't Bark Dean Starkman, 2014-01-07 The Pulitzer Prize-winning reporter details how the U.S. business press could miss the most important economic implosion of the past eighty years. Eric Alterman, media columnist for *The Nation*. In this sweeping incisive post-mortem, Dean Starkman exposes the critical shortcomings that softened coverage in the business press during the mortgage era and the years leading up to the financial collapse of 2008. He examines the deep cultural and structural shifts, some unavoidable, some self-inflicted, that eroded journalism's appetite for its role as watchdog. The result was a deafening silence about systemic corruption in the financial industry. Tragically, this silence grew only more profound as the mortgage madness reached its terrible apogee from 2004 through 2006. Starkman frames his analysis in a broad argument about journalism itself, dividing the profession into two competing approaches: access reporting and accountability reporting, which rely on entirely different sources and produce radically different representations of reality. As Starkman explains, access journalism came to dominate business reporting in the 1990s, a process he calls CNBCization, and rather than examining risky, even corrupt corporate behavior, mainstream reporters focused on profiling executives and informing investors. Starkman concludes with a critique of the digital news ideology and corporate influence, which threaten to further undermine investigative reporting, and he shows how financial coverage and journalism as a whole can reclaim its bite. Can stand as a potentially enduring case study of what went wrong and why. Alec Klein, national bestselling author of *Aftermath*. With

detailed statistics Starkman provides keen analysis of how the media failed in its mission at a crucial time for the U S economy Booklist *Journal of the K.R.
