Methods in Indigenous Studies Chris Andersen, Jean M. O'Brien, 2016-12-19 Sources and Methods in Indigenous Studies is a synthesis of changes and innovations in methodologies in Indigenous Studies focusing on sources over a broad chronological and geographical range. Written by a group of highly respected Indigenous Studies scholars from across an array of disciplines, this collection offers insight into the methodological approaches contributors take to research and how these methods have developed in recent years. The book has a two-part structure that looks firstly at the theoretical and disciplinary movement of Indigenous Studies within history, literature, anthropology, and the social sciences. Chapters in this section reveal that while engaging with other disciplines, Indigenous Studies has forged its own intellectual path by borrowing and innovating from other fields. In part two, the book examines the many different areas with which sources for indigenous history have been engaged, including the importance of family, gender, feminism, and sexuality, as well as various elements of expressive culture such as material culture, literature, and museums. Together, the chapters offer readers an overview of the dynamic state of the field in Indigenous Studies. This book shines a spotlight on the ways in which scholarship is transforming Indigenous Studies in methodologically innovative and exciting ways and will be essential reading for students and scholars in the field.

Lois McMaster Bujold Janet Brennan Croft, Donald E. Palumbo, C.W. Sullivan III, 2013-01-28 Lois McMaster Bujold has won a shelf full of awards: Hugos, Nebulas, and others for both her science fiction and fantasy writing. She is one of the most respected names in the field, always delivering polished, thoughtful, and well-crafted writing. She consistently addresses great issues and problems on a human level where they are faced by quirky, prickly, and very real characters, and her exploration of the theory of reader response is an important critical contribution. Yet there has been a surprising dearth

of serious critical writing about her output in part because she resists neat and easy classification by genre politics or subject matter This collection of fresh essays aims to correct that situation by presenting critical insights into many aspects of her writing Attention is given to both her Miles Vorkosigan science fiction series and her Chalion and Sharing Knife fantasy series as well as the books that fall outside these series

Notional Identities Thomas Christie, 2014-07-18 *Notional Identities* takes up the challenge of engaging with the popular genres of speculative fiction and crime fiction by Scottish authors from the mid 1970s until the beginning of the twenty first century examining a variety of significant novels from across the decades in the light of wider considerations of ideology genre and national identity The book investigates the extent to which the national political and cultural climate of this tumultuous era informed the narrative form and social commentary of such works and considers the manner in which and the extent to which a specific and identifiably Scottish response to these ideological matters can be identified in popular prose fiction during the period under discussion Although Scottish literary fiction of recent decades has been studied in considerable depth Scottish popular genre literature has received markedly less critical scrutiny in comparison *Notional Identities* aims to help in redressing this balance examining popular Scottish texts of the stated period in order to reflect upon whether a significant relationship can be discerned between genre fiction and the mainstream of Scottish literary writing and to consider the characteristics of the literary connections which exist between these different modes of writing
