American Incarnation Myra Jehlen, 1986 In exploring the origins and character of the American liberal tradition Myra Jehlen begins with the proposition that the decisive factor that shaped the European settlers idea of America or the American was material rather than conceptual it was the physical fact of the land European settlers came to a continent on which they had no history bringing the ideology of liberal individualism which they projected onto the land itself They believed the continent proclaimed that individuals were born in nature and freely made their own society An insurgent ideology in Europe this idea worked in America paradoxically to empower the individual and to restrict social change Jehlen sketches the evolution of the concept of incarnation through comparisons of American and European eighteenth century naturalist writings particularly Emerson's *Nature* She then explores the way incarnation functions ideologically to both enable and curtail action in the writing of fiction Her examination of Hawthorne and Melville shows how the myth of the New World both licensed and limited American writers who set out to create their own worlds in fiction She examines conflicts between the exigencies of narrative form and the imperatives of ideology in the writings of Franklin Jefferson Emerson and others Jehlen concludes with a speculation on the implication of this original construction of America for the United States today when such imperial concepts have been called into question

American Monster Paul Semonin, 2000-09 It was huge a ferocious carnivore capable of catching deer and elk with its long trunk and crushing them in its giant grinders It lived right there in the Hudson River Valley And no place else in the world had anything to match it Such were the thoughts about the first complete mastodon skeleton excavated in 1801 before dinosaurs were discovered and the notion of geologic time acquired currency Oregon based natural historian Semonin traces the evangelical beliefs Enlightenment thought and Indian myths about the extinct creatures from 1705 through US independence
