The Maritime Political Boundaries Of The World:

The Maritime Political Boundaries of the World Victor Prescott, Clive Schofield, 2005-01-01 This book addresses the often vexed question of national maritime claims and the delimitation of international maritime boundaries The number of undelimited international maritime boundaries is much larger than the number of agreed lines The two boundaries that define the marine domain of coastal states are examined First the baselines along the coast may consist of low water lines or straight lines or a combination of both When straight lines are used they define the seaward limit of the state's internal waters Second the outer limits of claims to territorial seas contiguous zones and exclusive economic zones are measured from the baselines All states will have to delimit at least one international boundary with a neighbouring state whether adjacent or opposite In confined seas no state can claim the full entitlement and must negotiate international boundaries with all neighbours Many states bordering oceans can claim the full entitlement seawards although they will need to delimit national boundaries with adjacent neighbours [The Maritime Political Boundaries of the World](#) John Robert Victor Prescott, 1986

[The Maritime Political Boundaries of the World](#) J. Prescott, 2013 **The Theory and History of Ocean Boundary-making** Douglas M. Johnston, 1988 In the classical and neo classical periods of international law the law of the sea was chiefly concerned with the need to facilitate the movement of ships In the post World War II period however coastal states began to make jurisdictional claims to extensive areas of the ocean requiring decisions on how ocean boundaries are to be established and maintained [Regions, Institutions, and Law of the Sea](#) Harry N. Scheiber, Jin-Hyun Paik, 2013-05-01 *Regions Institutions and Law of the Sea Studies in Ocean Governance* offers fresh perspectives both on issues specific to major ocean regions and on the nature and functions of institutions that implement the legal order of the oceans Of special interest is a set of chapters by distinguished scholars and jurists providing nuanced analysis of the International Tribunal for the Law of the Sea as a key actor in the institutional and regime structure Other expert authors contribute timely analysis of specific ocean uses in the context of implementation of soft and hard law Piracy global warming and ecosystem challenges geo engineering control of pollution in shipping operations Seabed Authority policy and performance of the UN Regional Seas Programme are among key issues presented in both their regional and legal dimensions Also considered in depth are law ocean policy and the operation of international organizations in Northeast Asia Latin America the Indian Ocean region the African coastal areas and the Arctic The accessibility of subject matter and the readability of the text's 26 chapters enhance the value of this book as an important addition to the literature *Regions Institutions and Law of the Sea* is the latest publication of the Law of the Sea Institute at UC Berkeley a major voice in the global debates of contemporary ocean law and policy Inha University Incheon was a major co sponsor of the project **Maritime Boundary Delimitation: The Case Law** Alex G. Oude Elferink, Tore Henriksen, Signe Veierud Busch, 2018-03-15 The law of maritime delimitation has been mostly developed through the case law of the International Court of Justice and other tribunals In the past decade there have been a

number of cases that raise questions about the consistency and predictability of the jurisprudence concerning this sub field of international law This book investigates these questions through a systematical review of the case law on the delimitation of the continental shelf and the exclusive economic zone Comprehensive coverage allows for conclusions to be drawn about the case law s approach to the applicable law and its application to the individual case Maritime Boundary Delimitation The Case Law will appeal to scholars of international dispute settlement as well as practitioners and academics interested in the law concerning the delimitation of maritime boundaries

UN Convention on the Law of the Sea and the South China Sea Shicun Wu,Mark Valencia,Nong Hong,2016-03-09 Research on The United Nations Convention on the Law of the Sea UNCLOS is a valuable addition to understanding the political situation in the potentially volatile South China Sea region This book covers topics such as baselines historic title and rights due regard and abuse of rights peaceful use of the ocean navigation regimes marine scientific research intelligence gathering the UNCLOS dispute settlement system and regional common heritage In search of varying viewpoints the authors in this book come from multiple countries including the Philippines Australia Ireland Mainland China and Taiwan the United States and Indonesia Singapore UK and Germany Ongoing events such as the recent waves made by China in the East China Sea and increasing tensions between the South East Asian countries over the use of South China Sea make this book especially pertinent

Recent Developments in the South China Sea Dispute Wu Shicun,Nong Hong,2014-05-30 The South China Sea region contains potentially huge deposits of petroleum and natural gas important shipping lanes and fishing areas and is subject to a number of maritime territorial disputes This edited volume analyzes the most recent development in the South China Sea dispute looking at the positions taken by China the ASEAN countries and the US In recent years maritime joint development zones have emerged as an important means to overcome deadlock in relation to maritime jurisdictional claims This book tests the applicability of joint development regime in this region and explores the prospect of joint development of resources as a way to successfully manage the conflict in the South China Sea Eminent scholars in the field of South China Sea studies have contributed original chapters to the volume covering such issues as the legal framework for joint development how joint development might work in practice the challenges faced by and the prospects arising from joint development and the way forward for the region

Neptune's Domain Martin Ira Glassner,2024-05-01 First published in 1990 Neptune s Domain is organized around one unifying theme the geographic aspects of the new Law of the Sea as expressed primarily in the United Nations Convention on the Law of the Sea The first two chapters provide essential background information Chapters 3 through 9 explain relevant provisions of the Convention The next two chapters cover topics excluded from the Convention and the last three chapters are more analytical and future oriented All students and scholars concerned with the human use of the marine environment will welcome this book whether they be geographers political scientists or lawyers

Coexistence, Cooperation and Solidarity (2 vols.) ,2011-11-25 This Liber Amicorum dedicated to Judge R diger Wolfrum of the

International Tribunal for the Law of the Sea highlights paradigmatic changes in international law a body of law which moved during the 20th century from a law of coexistence to one of cooperation and which is now about to reflect notions of solidarity going even beyond cooperative undertakings This leitmotif of R diger Wolfrum s academic research and judgeship is represented in a comprehensive collection of essays by eminent scholars and practitioners of international law covering specific aspects of international law including law of the sea human rights international environmental law international dispute settlement peace and security global governance and domestic law With its multifaceted and comprehensive overview of the evolution of international law in recent years and detailed study of current challenges this collection is a unique source of insight for all those interested in this fascinating field of law Antarctica and the Law of the Sea

Christopher C. Joyner, 2021-09-27 Antarctica and the Southern Ocean cover one tenth of the earth s surface In a legal and environmental sense Antarctica represents the geography of hope It is the freshest and most pristine of regions governed by a legal regime that offers Antarctica and its circumpolar water the unique possibility of becoming the world s first global wilderness preserve But in today s age of resource scarcity Antarctica still provokes much political economic and legal debate Over the past decade international attention has increasingly focused on the legal status of the continent the potential for hydrocarbon exploitation offshore and opportunities for harvesting circumpolar living marine resources In this fascinating treatment Christopher C Joyner undertakes the first serious examination of the intimate relationship between Antarctica and the law of the sea Using Antarctica as a case study Joyner probes large conceptual issues of ocean law and politics He uses the intricate details of oceanography and law to unravel the dynamics of the Antarctic Treaty System In doing so he examines how the changing importance of Antarctic issues has affected the development of the law of the sea for the region the ways in which states define their national interests and the accommodation through various negotiations that have contributed to the development of law for governing the Southern Ocean While the study of law for the Antarctic is provocative in itself this work goes much farther The study critically analyzes the region s biogeography the condition of sovereignty on the continent the lawfulness of asserting jurisdictional zones offshore and various legal implications for Antarctica s continental shelf local island groups circumpolar deep seabed and the Southern Ocean s high seas Moreover the special legal efforts by the international community to protect the Antarctic seas from marine pollution and to conserve its living marine resources are comprehensively appraised Thorough authoritative and objectively reasoned Antarctica and the Law of the Sea provides an insightful assessment of how law can progressively develop for a resource rich region of the world s ocean As such it should appeal to a broad range of international lawyers and social scientists who are interested in international relations political economy environmental politics and the law of the sea **Joint Development of Hydrocarbon Deposits in the Law of the Sea** Vasco Becker-Weinberg, 2014-08-05 This book examines the concept and purpose of joint development agreements of offshore hydrocarbon deposits from the perspective of public international law and the law of the sea taking into

consideration and extensively reviewing State practice concerning seabed activities in disputed maritime areas and when hydrocarbon deposits extend across maritime boundaries It distinguishes between agreements signed before and after the delimitation of maritime boundaries and analyzes the relevance of natural resources or unitization clauses included in maritime delimitation agreements It also takes into consideration the relation between these resources and maritime delimitation and analyzes all the relevant international jurisprudence Another innovative aspect of this book is that it examines the possibility of joint development of resources that lay between the continental shelf and the Area considering both theoretical and practical problems As such the book is a useful tool for scholars and experts on public international law and the law of the sea but also for national authorities and practitioners of international disputes resolution as well as public and private entities working in the oil and gas industry
