Listen to the Blues! James E. Perone, 2019-02-15 Listen to the Blues Exploring A Musical Genre provides an overview of this distinctly American musical genre for fans of the blues and curious readers alike with a focus on 50 must hear artists albums and subgenres Unlike other books on the blues which tend to focus on musician biographies Listen to the Blues devotes time to the compositions recordings and musical legacies of blues musicians from the early 20th century to the present Although the author references musical structure harmony form and other musical concepts the volume avoids technical language therefore it is a volume that should be of interest to the casual blues fan to students of blues music and its history and to more serious blues fans The chapters on the impact of the blues on popular culture and the legacy of the blues also put the genre in a broader historical context than what is found in many books on the blues The book opens with a background chapter that provides an overview of the history and structure of blues music A substantial encyclopedic chapter that focuses on 50 must hear blues musicians follows as does a chapter that explores the impact on popular culture of blues music and musicians and a chapter that focuses on the legacy of the genre A bibliography rounds out the work

The Moment Before the Music Begins Lisa Campbell Albert, Bill Lynch, 2022-09-13 For over twenty five years Lisa Campbell Albert and Bill Lynch have been collaborating on and in Musical Theatre working in professional

productions conducting workshops teaching song study and coaching both professional and aspiring Musical Theatre artists Over the years and the occasional beers they maintained an ongoing dialogue They noticed that they were both almost invariably drawn to the same artists So they asked each other the simple question why What was it that these artists had or perhaps more importantly what was it that these artists did that compelled Lisa and Bill to both become involved with the song While the question seemed simple the answer seemed elusive After much debate and discussion eventually the answer became clear Lisa and Bill understood why the artist was singing That s because the artist knew why they were singing The need to sing arose in the artist long before the first chord of the song was struck and was sustained until the final chord resolved Lisa and Bill cared about why they were singing therefore cared more about what they were doing in the song than how they were singing the song In short the need to sing began for the artist in the moments before the music began Lisa and Bill set out to develop a vocabulary and a process that guides singers to discover their personal reason for why they are singing a specific song Through a series of specific questions the singer then develops a series of actions to play using the lyric the melody and the accompaniment as tools to achieve an objective This empowers the singer to make a song their own while honoring the given circumstances provided by the composer lyricist and librettist After years of testing and refining this process with students of all ages and levels of experience Lisa and Bill are excited to share their T E A M tm approach to song study
