The Maidens Bequest:

The Maiden's Bequest George MacDonald, 1985 Rev ed of Alec Forbes of Howglen 1865 Orphaned as a child Annie's special friendship with Alec is a source of strength and security which sees them both through many difficulties in their nineteenth century Scotland The Maiden's Bequest; the Minister's Restoration; the Laird's Inheritance George MacDonald, 1998 3 novels by Scottish Christian author Altarpieces and Their Viewers in the Churches of Rome from Caravaggio to Guido Reni Pamela M. Jones, 2017-07-05 A social history of reception this study focuses on sacred art and Catholicism in Rome during the late sixteenth and seventeenth centuries The five altarpieces examined here were painted by artists who are admired today Caravaggio Guercino and Guido Reni and by the less renowned but once influential Tommaso Laureti and Andrea Comodi By shifting attention from artistic intentionality to reception Pamela Jones reintegrates these altarpieces into the urban fabric of early modern Rome allowing us to see the five paintings anew through the eyes of their original audiences both women and men rich and poor pious and impious Because Italian churchmen relied after the Council of Trent on public altarpieces more than any other type of contemporary painting in their attempts to reform and inspire Catholic society it is on altarpieces that Pamela Jones centers her inquiry Through detailed study of evidence in many genres including not only painting prints and art criticism but also cheap pamphlets drama sermons devotional tracts rules of religious orders pilgrimages rituals diaries and letters Jones shows how various beholders made meaning of the altarpieces in their aesthetic devotional social and charitable dimensions This study presents early modern Catholicism and its art in an entirely new light by addressing the responses of members of all social classes not just elites to art created for the public It also provides a more accurate view of the range of religious ideas that circulated in early modern Rome by bringing to bear both officially sanctioned religious art and literature and unauthorized but widely disseminated cheap pamphlets and prints that were published without the mandatory religious permission On this basis Jones helps to illuminate further the insurmountable problems churchmen faced when attempting to channel the power of sacred art to elicit orthodox responses

highly significant interventions in national constitutional development it describes recurring struggles to achieve communal solidarity and independence in a society continuously and prescriptively divided by gross inequalities of class and status The result is a social and political history of a great trans generational epic in which local and national influences constantly interacted From the generation of Magna Carta to the regicides of Edward II and Richard II through the vernacular revolution of the long fifteenth century and the chaos of state reformations to the great revival that ended in the constitutional wars of the 1640s the epic was united by strategic location and by systemic structural inequalities that were sometimes mitigated but never resolved Individual and group personalities emerge from every chapter but the personality that dominates them all Rollison argues is a commune with a mind of its own continuously regenerated by enduring strategic realities An afterword describes the birth and development of a new rural myth and identity and suggests some archival pathways for the exploration of a legendary English town in the modern and postmodern industrial and post industrial epochs
